

# RUINSTARS - CORE RULES QUICK REF

## DICE & ROLLS

|                      |                      |                         |
|----------------------|----------------------|-------------------------|
| <b>1</b><br>CRITICAL | <b>2-5</b><br>NORMAL | <b>6</b><br>ALWAYS FAIL |
|----------------------|----------------------|-------------------------|

**Success:** Roll equal to or lower than the target stat.

**Always fails:** A roll of **6** is always a failure regardless of modifiers.

**Critical:** A roll of **1** is a critical success with bonus effects.

**Re-rolls:** Each die may only be re-rolled once. Result is final.

**D3:** Roll D6 ÷ 2 rounding up. (1-2 = 1, 3-4 = 2, 5-6 = 3)

## ACTIONS

Each action costs listed ACT first time; +1 ACT each repeat in same activation.

| ACTION                 | ACT      | EFFECT                             |
|------------------------|----------|------------------------------------|
| <b>Move</b>            | <b>1</b> | Up to 6"                           |
| <b>Dash</b>            | <b>1</b> | Up to 2", same rules as Move       |
| <b>Ranged Combat</b>   | <b>1</b> | Attack valid target in LoS & range |
| <b>Melee Combat</b>    | <b>1</b> | Attack Adjacent target             |
| <b>Pick Up / Drop</b>  | <b>1</b> | Adjacent marker/token              |
| <b>Give</b>            | <b>1</b> | Pass token to Adjacent squadmate   |
| <b>Open/Close Door</b> | <b>1</b> | Adjacent door                      |
| <b>Mission Action</b>  | <b>—</b> | As defined in Mission Briefing     |

## RANGED COMBAT

**SELECT TARGET** > **ROLL ATT** > **ROLL ARM SAVES**

**Valid target must:**

- Not be Adjacent to attacker or squadmates
- Be within weapon range (RNGx)
- Be in Line of Sight

Cannot attack if Adjacent to any enemy.

| MODIFIER           | EFFECT                                  |
|--------------------|-----------------------------------------|
| <b>Cover</b>       | Target may re-roll 1 Armor Save         |
| <b>High Ground</b> | Attacker 4"+ higher; target loses Cover |

Cover applies only if terrain is within 1" of target.

## MOVEMENT & POSITIONING

| RULE              | DETAIL                                           |
|-------------------|--------------------------------------------------|
| <b>Move</b>       | Up to 6" per action                              |
| <b>Adjacent</b>   | Bases within 1", same elevation, no wall between |
| <b>Control</b>    | Adjacent to item, not adjacent to any enemy      |
| <b>Climb Up</b>   | 1" per inch of height + 1" to crest top          |
| <b>Climb Down</b> | Same but vertical costs 2" less (min 0")         |
| <b>Range</b>      | Horizontal only – ignore vertical distance       |

**Attack of Opportunity:** When a unit moves out of Adjacency to an enemy, that enemy may make a free Melee attack.

Spend 2" of movement to reduce enemy ATT dice by 1. Max 1 AoO per unit per turn.

## GAME CYCLE

MISSION START

**SELECT MISSION** > **SET UP** > **DEPLOY UNITS**

EACH TURN

**START OF TURN** > **ACTIVATE UNITS** > **END OF TURN**

ACTIVATIONS

Squads alternate activating one **Unit** until all Units are activated.

MISSION END

**VICTORY** > **EARN MP** > **APPLY INJURIES**

MP & Injury rules defined in your play mode.

## TACTICAL ORDERS (TO)

Roll TO dice each turn. Each **1-3** = 1 TO. Unused TO are lost end of turn.

| CONDITION                 | DICE   |
|---------------------------|--------|
| <b>Leader Standing</b>    | 5 dice |
| <b>Leader Taken Out</b>   | 3 dice |
| <b>Per Unit Taken Out</b> | +1 TO  |

SPEND TO TO:

- Perform a Unit's TO Skill
- Re-roll any one die
- Change a die result by **±1** (stackable)
- Perform an extra Basic or Mission Action

## MELEE COMBAT

**SELECT TARGET** > **ROLL ATT** > **ROLL ARM SAVES**

**Target must be Adjacent.** Cover does not apply to Melee.

| ROLL RESULT          | EFFECT                                                               |
|----------------------|----------------------------------------------------------------------|
| <b>ATT roll 1</b>    | Critical Strike – 2 Damage                                           |
| <b>ARM roll 1</b>    | Critical Save – blocks 1 dmg + returns 1 dmg to attacker (chainable) |
| SUPPORT              | EFFECT                                                               |
| <b>Attacker side</b> | Per squadmate Adjacent to target: re-roll 1 ATT die                  |
| <b>Defender side</b> | Per squadmate Adjacent to target: re-roll 1 Save die                 |

## SQUAD BUILDING

**Budget:** 100 GP total (units + gear).

**Size:** 4-10 Units.

**Leader:** Exactly one per Squad.

**Unique (\*)** Units and gear: max one per squad.

CO-OP MINI SQUADS

2P → 50 GP each · 3P → 34 GP each · 4P → 25 GP each

Only one Leader across all mini-squads.

## WEAPON SPECIALS

| CODE        | NAME                                                                                                                                                                                                                                                                                                                                                                                |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>*</b>    | <b>Unique</b><br>A Squad cannot include this Gear more than once.                                                                                                                                                                                                                                                                                                                   |
| <b>ZMC</b>  | <b>Double Melee</b><br>During each of its Activations, the second time this Unit performs the Melee Combat action with this weapon costs 1 less ACT.                                                                                                                                                                                                                                |
| <b>ZRC</b>  | <b>Double Ranged</b><br>During each of its Activations, the second time this Unit performs the Ranged Combat action with this weapon costs 1 less ACT.                                                                                                                                                                                                                              |
| <b>ACCx</b> | <b>Accurate x</b><br>Each time this Weapon is used in Ranged Combat, the Attacker may re-roll up to x of its Attack dice.                                                                                                                                                                                                                                                           |
| <b>AUTx</b> | <b>Autohit x</b><br>Each time this weapon is used in Combat, x of this Weapon's Attack dice is an automatic Strike without rolling it. You may still choose to roll that die.                                                                                                                                                                                                       |
| <b>BLS</b>  | <b>Blast</b><br>Each time the Unit uses this weapon, it fires against the target and any other Adjacent Units (including Squadmates) visible to the original target. Roll Attack dice once and apply the resulting strikes to each affected Unit.                                                                                                                                   |
| <b>BRUx</b> | <b>Brutal x</b><br>Each time this weapon is used in Melee Combat, the Attacker may re-roll up to x of its Melee Combat attack dice.                                                                                                                                                                                                                                                 |
| <b>CHRx</b> | <b>Chain Reaction x</b><br>Each time this weapon is used in Combat, after resolving the Attack on the primary target, you may apply the same Attack roll's strikes on up to x other secondary targets Adjacent to the original target.                                                                                                                                              |
| <b>HIT</b>  | <b>Hit Strikes</b><br>This Weapon's ATT is equal to this Unit's remaining HIT.                                                                                                                                                                                                                                                                                                      |
| <b>HVY</b>  | <b>Heavy</b><br>This weapon penalizes the Unit's movement and firing actions: If the Unit performs a Move Action, its next combat action performed with this weapon costs 1 additional ACT. If the Unit uses this weapon in combat, its next Move Action costs 1 additional ACT. Units can perform a Dash Action with this weapon equipped without any penalties.                   |
| <b>LIM</b>  | <b>Limited Ammo</b><br>This weapon can only be used once during each Mission.                                                                                                                                                                                                                                                                                                       |
| <b>NCV</b>  | <b>No Cover</b><br>Each time this Weapon is used in combat, targets do not benefit from Cover.                                                                                                                                                                                                                                                                                      |
| <b>PBK</b>  | <b>Point Blank</b><br>This Ranged weapon can target an adjacent Enemy. Note using this weapon in this way is still a Ranged attack.                                                                                                                                                                                                                                                 |
| <b>RLT</b>  | <b>Relentless</b><br>Each time this Weapon is used in combat, you may re-roll all die results of 6.                                                                                                                                                                                                                                                                                 |
| <b>RNDx</b> | <b>Rending x</b><br>Each time this weapon is used in combat, up to x Critical Strikes cause 3 Damage (instead of 2).                                                                                                                                                                                                                                                                |
| <b>RNGx</b> | <b>Range x</b><br>This weapon's maximum range for target selection is x.                                                                                                                                                                                                                                                                                                            |
| <b>SPR</b>  | <b>Spread</b><br>Each time this Weapon is used, the Unit may select multiple targets as long as each selected target is a valid target and is Adjacent to another selected target. If multiple targets are selected, distribute this weapon's Attack Dice between these selected targets and perform attacks accordingly. Allocate at least one Attack die to each selected Target. |
| <b>STN</b>  | <b>Stun</b><br>Each time this Unit uses this weapon, if it rolls at least one Critical Strike, the target gets -1 ACT in its next Activation (minimum 1).                                                                                                                                                                                                                           |
