

RUINSTARS

Squad Operations In A Dying Galaxy

PVE MISSIONS

2nd Edition v20260228

PVE MISSIONS

INTRODUCTION

There are no fair fights left.

The great wars are over, or so the histories claim. What remains are their consequences: quarantined sectors, broken supply lines, abandoned installations, and threats that cannot be destroyed, only contained, delayed, or outrun.

PvE missions represent the work that never makes it into official records. Recovery operations that arrive too late. Containment efforts stretched past their breaking point. Raids launched not to win, but to buy time.

Your squad is deployed with limited intelligence, incomplete objectives, and no guarantee of extraction. Every decision carries weight beyond the battlefield. What you secure, what you abandon, and who you leave behind will shape what comes next.

ABOUT

This book contains everything needed to play procedurally generated PvE missions in Ruinstars.

PvE missions are designed to be playable solo or cooperatively, fast to set up, narrative-driven without requiring a dedicated game master, and meaningful across multiple missions and campaigns.

Each Mission is one engagement that sees your Squad face enemy forces and make difficult decisions on risks vs rewards. Each Mission has two objectives, but completing those objectives is not enough to ensure victory; your Squad must make it off the battlefield alive to reap the rewards.

PvE play emphasizes tactical restraint over reckless aggression, extraction as a strategic decision, not an afterthought, and long-term squad survival over single-mission dominance.

Note you will need the  Core Rules PDF to play this mode.

ANCHORS

Some Objectives and Events include placing markers or tokens on "Anchors". Anchors are nine fixed reference points arranged across the battlefield by compass direction: the four corners (NW, NE, SW, SE), the four edge midpoints (N, S, E, W), and the Center (C), as illustrated below.

To place your Anchors, use the following measurements from the battlefield edges:

- Corner Anchors (NW, NE, SW, SE): 4" from each adjacent edge
- Cardinal Anchors (N, S, E, W): 6" from their adjacent edge, centered on that edge
- Center (C): The center of the battlefield

When an Objective or Event instructs you to place a marker on a random Anchor, roll 1D10 and consult the diagram below. On a 10, select any Anchor of your choice. If an Anchor is already occupied, re-roll that placement.

MISSION SETUP

Before the first turn begins, follow the steps below to generate your mission. Each mission is defined by two random **Objectives** that determine victory conditions, a Mission **Modifier** that alters battlefield conditions, and a **Deployment** variant that determines where both squads begin.

For your first mission, skip steps 2 and 3; play with Standard Conditions and Standard Insertion to learn the core mechanics. Once you're comfortable, the Mission Modifiers and Deployment Variants add significant variety without increasing complexity. Optional rule: you may add the current Threat Level to your Mission Modifier roll (maximum 6) for increased difficulty.

NPC SQUADS

Each mission is opposed by a single NPC faction. Select a faction from the NPC Units section at the back of this book, or choose one randomly. For variety, we recommend using the same faction for all three missions within an Operation, then switching factions for the next Operation.

Each NPC Squad has a Spawn Table that determines which Units are deployed for a given mission. Before deploying the NPC Squad, select a Threat Level from 1 to 3. Threat Level represents the intensity of the opposition your Squad faces. Higher Threat Levels produce more dangerous Units and larger groups. If playing a Campaign, the Threat Level should match the current Operation number: TL1 for Operation 1, TL2 for Operation 2, TL3 for Operation 3.

Once you have selected a faction and Threat Level, roll **3D6** and consult that faction's Spawn Table. Each die is resolved individually - look up each result in the column matching your current Threat Level to identify the Units spawned by that die.

MISSION SETUP

1. Roll 2 Objectives
2. Roll Mission Modifier
3. Roll Deployment
4. Roll NPC Squad Units
5. Deploy NPC Squad
6. Deploy Player Squad

OBJECTIVES (D6)

At the start of the Mission, roll **2D6** to determine two objectives for the mission (re-roll doubles).

1: Control Objectives

Setup: Place a Objective on three random Anchors.

Victory: At the end of Turn 4, Player Squad Controls all three Objectives.

2: Activate Objectives

Setup: Place an Objective on 3 random Anchors.

Mission Action - Activate (2ACT): A Unit that Controls an Objective activates it. Remove that Objective from the battlefield.

Victory: All 3 Objectives have been activated.

3: Destroy Objectives

Setup: Place an Objective on 3 random Anchors.

Special: Objectives are items with **ARM 3** and **HIT 2** and can be targeted in combat.

Victory: All Objectives are Taken Out.

4: Protect The Asset

Setup: Place an Asset marker on a random Anchor. Assets are Items with **ARM 3** **HIT 3** and can be targeted in Combat.

Special: NPC Units always prioritize targeting the Asset instead of Player Units.

Victory: At the end of Turn 4, the Asset still has at least 1 **HIT**.

5: Search & Recover

Setup: Place a Search Objective on 3 random Anchors.

Mission Action - Search (2ACT): A Unit that Controls a Search Objective searches it. Roll **1D6**:

- First Search: Artifact is found on a roll of **1**
- Second Search: Artifact is found on a roll of **1-2**
- Third Search: Artifact is found automatically

This roll cannot be modified or re-rolled using TO.

Victory: The Artifact is found.

6: No Survivors

Victory: All enemy Units Taken Out.

These Objectives describe mechanics, not story. The names and markers are placeholders. When building a campaign, replace them with whatever fits the mission.

"Activate Objectives" can mean picking up data cores, toppling ritual altars, or placing demolition charges. "The Asset" becomes a defector, a relic, or a downed pilot.

The mechanics stay the same; the campaign tells the player what each objective means.

MISSION MODIFIERS (D6)

These Mission Modifiers are optional; you can choose to skip them.

For an extra challenge, add the current Threat Level to your roll (maximum 6) for increased difficulty. Recommended for experienced Squads.

1: Standard Conditions

No additional battlefield conditions apply to this mission.

2: Fortified Position

The enemy dug in before you arrived. All NPC Units are placed in Cover at deployment and considered in Cover (regardless of actual position) until they move for the first time.

3: Fog of War

Visibility is severely reduced. All Ranged combat is limited to a maximum range of 8". Weapons with a range shorter than 8" are unaffected. Weapons with infinite range are treated as RNG8" this mission.

4: Blackout

Squad communications are jammed. The Player Squad cannot spend TO to change the result of dice by +/- 1 this mission. TO may still be spent on all other uses (actions, skills, re-rolls).

5: Hostile Environment

The battlefield itself is killing you. At the end of each Turn, all Units (Player or NPC) within 6" of the Center anchor takes 2 Damage.

6: Blacksite

No outside support reaches the squad. Do not roll Turn Events this mission. Turn Events do not apply for any reason, including Reinforcements in turns 5+.

DEPLOYMENTS (D6)

1: Standard Insertion

Player Squad deploys on the Southern edge. NPC Squad deploys on the Northern edge, in Cover if possible.

2: Hot Drop

The insertion was faster than expected. Player Squad deploys within 4" of the Center anchor. NPC Squad deploys on the Northern edge, in Cover if possible.

3: Flanked

Intel was wrong. The enemy is coming from two directions. NPC Squad splits as evenly as possible and deploys on both the Eastern and Western edges, in Cover if possible. Player Squad deploys on the Southern edge.

4: Deep Strike

Both sides arrived at the same time. Player Squad deploys within 4" of the SE anchor. NPC Squad deploys within 4" of the NW anchor, in Cover if possible.

5: Overwatch

The enemy holds the high ground and saw you coming. NPC Squad deploys anywhere on the Northern half of the battlefield, in Cover if possible. Player Squad deploys on the Southern edge.

6: Encircled

Extraction just got complicated. Player Squad deploys within 4" of the Center anchor. NPC Squad splits as evenly as possible across all four edges of the battlefield, in Cover if possible.

PLAYING THE MISSION

TURN SEQUENCE

1. Roll TOs
2. Roll Turn Events
3. Resolve "Start of Turn" Events and Skills
4. Activate Units
5. Choose to Extract

TURN EVENTS (D6)

At the start of each Turn, roll **1D6** to determine a special event for the Turn. If the Mission is in Turn 5 or later, do not roll Turn Events and apply the **Enemy Reinforcements** event instead.

1: Opportunity

One Player Unit may immediately spend up to **2 ACT** on actions before the start of the Turn. This does not count as that Unit's activation for the Turn.

2: Field Dressing

One Standing Player Unit regains 1 lost **HIT**.

3: Strategic Command

Player Squad gains **+2 TO**.

4: Scrambled Comms

Player Squad loses **-2 TO** (minimum 0).

5: Overrun

All NPC Units immediately perform 1 Action according to their Behavior.

6: Enemy Reinforcements

Roll **1D6** and consult the Spawn Table for the current Threat Level. Spawn one Unit of the indicated type Adjacent to a random Anchor.

NPC ACTIVATIONS

After each Player Unit activation, the same player activates a Ready NPC Unit. Each NPC Unit has a "Behavior" skill that describes how it spends its ACT. After each NPC Unit activation, the next Player activates a Player Unit and the cycle repeats until all Units have been activated.

EXTRACTION

At the start of Turn 4, roll a random Anchor to determine the Extraction Point. If that Anchor is occupied by an objective marker, re-roll until an unoccupied Anchor is selected.

At the end of Turn 4 or later, the Player Squad may extract. Each Standing Unit within 4" of the Extraction Point that is not Adjacent to any enemy Unit extracts successfully.

Units that fail to meet both conditions are left behind: treat each as if it was Taken Out during the mission (apply Injuries in Campaign play).

MISSION END

The mission ends when the Player Squad extracts or when all Player Units have been Taken Out.

Upon extraction, any Objectives whose victory conditions were met are considered completed and score 3 MP each. If no Player Units extract, no Objectives are considered completed regardless of their state.

Player Squad also scores 1MP per Threat Level, regardless of completed objectives or extraction.

In Campaign play, MP can be spent on Rewards (see **Campaigns** below) for the Squad.

CAMPAIGNS

CAMPAIGN STRUCTURE

A Campaign is composed of three Operations, and each Operation is composed of three Missions.

At the end of each Operation, your Squad returns to Homebase to heal injuries, resupply, and recruit new Units into the Squad.

SAMPLE CAMPAIGN

- Operation 1
Threat Level 1
 - Mission 1.1
 - Mission 1.2
 - Mission 1.3
 - Homebase
- Operation 2
Threat Level 2
 - Mission 2.1
 - Mission 2.2
 - Mission 2.3
 - Homebase
- Operation 3
Threat Level 3
 - Mission 3.1
 - Mission 3.2
 - Mission 3.3
 - Homebase

OPERATIONS

An Operation represents a critical deployment arc within the larger Campaign structure, and is composed of three sequential Missions. When the Operation begins, your Squad is considered in the field. While deployed in the field, the Squad cannot change its Units or Gear selections, and any Mission Points (MP) earned during these missions cannot be spent on new Units or Gear.

Once the third Mission of an Operation is complete, your Squad returns to Homebase to heal Injuries, make new Gear selections, and recruit new Units by spending their hard-earned MP.

MISSIONS AND OBJECTIVES

Each Mission in the campaign should move the story forward. In many cases, this means using the 6 Objectives from the table above, but re-skinning them to fit the narrative. Here are some examples of reframing the core Objectives to fit *your* story:

CONTROL OBJECTIVES

The markers could be anything worth holding: a comm relay that must stay live, a breach point that cannot be ceded, a position that commands the only viable extraction route. The story reason matters less than the pressure it creates. If the enemy controls it, you lose.

ACTIVATE OBJECTIVES

Think of these as things that must be done, not held. Purging corrupted data cores. Triggering demolition charges. Sealing breaches in a containment perimeter. The squad moves through, does the work, and leaves. The objective is complete when there is nothing left to do.

DESTROY OBJECTIVES

These are things that cannot be allowed to survive. Spawn nodes. Weapons caches. A relay broadcasting enemy coordinates. Whatever they are, they can take damage and they must be brought down. Unlike Activate Objectives, destroying them is a fight, not a procedure.

PROTECT THE ASSET

The asset is whatever your squad cannot afford to lose. A wounded officer. A piece of salvage worth more than the mission. A civilian who knows something. The enemy will go for it. Your job is to make sure they fail.

SEARCH & RECOVER

Something is here. You don't know where. It could be intelligence, a weapon, a body, a signal source. You search until you find it. Campaigns can replace the die roll with a guaranteed find on each marker if the mission calls for certainty over tension.

NO SURVIVORS

No markers. No positions. No extraction until the last one drops. Sometimes the mission is that simple, and that hard.

ENEMY FACTION AND THREAT LEVEL

The Threat Level to use when building NPC Squads should be the same as the Operation number (i.e. TL1 for Missions in Operation 1, TL2 for Operation 2, TL3 for Operation 3). For simplicity, we also recommend using the same faction for all Missions in a given Operation but you may choose to change factions for each Mission.

HOMEBASE

At the end of each Operation, after the third Mission, your Squad returns to Homebase to heal injuries, resupply, and utilize accrued resources.

1. Remove all Deceased Units from your Squad.
2. Remove one Injury from remaining Units.
3. Recruit new Units into the Squad (to maximum 100 GP).
4. Make changes to your Squad's selected Gear and Spoils Of War.

INJURIES

At the end of each Mission, each of your Units that was Taken Out during the mission may have a persistent injury. Note that when playing a campaign, all Injuries (except Deceased) are removed from your Units when they return to Homebase at the end of each Operation.

At the end of each Mission, for each Player Unit that was Taken Out, roll **1D6** to determine the Injury this Unit received.

If the Injury is one that the Unit already had, that Unit is Deceased. Remove the Unit from the Squad. That Unit cannot be replaced until the Squad returns to Homebase at the end of the Operation.

- **1 - RECOVERED**

No new injury.

- **2 - BROKEN ARM**

The Unit's Melee Weapons get -1 SKL (minimum 1).

- **3 - NERVE DAMAGE**

The Unit's Ranged Weapons get -1 SKL (minimum 1).

- **4 - CRUSHED LEG**

Each time the Unit performs the Move action, it moves 2" less.

- **5 - DAMAGED ARMOR**

The Unit gets -1 ARM (minimum 1).

- **6 - DEEP WOUND**

The Unit gets -1 starting HIT (minimum 1).

- **DECEASED**

If the Unit receives an Injury that it already possesses (e.g. rolling "Damaged Armor" when it already has "Damaged Armor"), that Unit is instead Deceased. A Deceased Unit is permanently removed from the Squad and cannot be used in future Missions.

SPOILS OF WAR

When the Squad returns to Homebase, it can purchase Spoils of War by spending MP earned during the previous Operation. Each Spoil of War costs 8 MP and applies to one specific Player Unit.

- **ACCURATE 1**

This Unit may re-roll up to 1 of its Ranged Combat attack dice. This is cumulative with other Accurate specials (e.g. on this Unit's weapons).

- **BRUTAL 1**

This Unit may re-roll up to 1 of its Melee Combat attack dice. This is cumulative with other Brutal specials (e.g. on this Unit's weapons).

- **COUNTER**

Each time this Unit is the primary target of a Melee Attack, if this Unit did not lose any HIT by the end of that Combat, it may immediately perform a Melee Attack against the original Attacker.

- **DODGE 1**

Each time this Unit is the target of a Ranged Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Dodge specials.

- **MELEE ATT +1**

This Unit's Melee weapons gain + 1 ATT.

- **MELEE CHAIN REACTION 1**

This Unit's Melee Weapons gain CHR1 (Chain Reaction 1).

- **MELEE RELENTLESS**

This Unit's Melee weapons gain RLT (Relentless).

- **MELEE RENDING 1**

This Unit's Melee weapons gain RND1 (Rending 1).

- **MELEE SKL + 1**

This Unit's Melee weapons gain +1 SKL.

- **RANGED ATT +1**

This Unit's Ranged weapons gain + 1 ATT.

- **RANGED BLAST**

This Unit's Ranged Weapons gain BLS (Blast).

- **RANGED RELENTLESS**

This Unit's Ranged weapons gain RLT (Relentless).

- **RANGED RENDING 1**

This Unit's Ranged weapons gain RND1 (Rending 1).

- **RANGED SKL + 1**

This Unit's Ranged weapons gain +1 SKL.

- **SWIFT**

Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

- **TECHNICIAN**

During each of its Activations, this Unit may perform one Mission action for 1 less ACT.

- **TOUGH 1**

Each time this Unit is the target of a Melee Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Tough specials.

QUICK REFERENCE

GAME CYCLE

MISSION SETUP

EACH TURN

NPC SQUADS

Select an enemy faction and a **Threat Level (1-3)**. Roll **3D6** – each die resolved independently. Look up each result in the column for the current TL to identify spawned Units.

In Campaign play, TL matches the Operation number: TL1 for Op 1, TL2 for Op 2, TL3 for Op 3. We recommend using the same faction for all Missions in an Operation.

EXTRACTION & MISSION POINTS

At start of Turn 4, roll a random Anchor as the **Extraction Point**. At end of Turn 4+, Standing Units within 4" of it and not Adjacent to enemies **Extract**. Units that fail both conditions count as Taken Out.

+1 MP per Threat Level (always) · +3 MP per completed Objective (only if any Units extracted)

TURN SEQUENCE

After each Player Unit activation, the same player activates a Ready NPC Unit per its **Behavior**. Repeat until all Units have activated.

Resolve any **Start of Turn** skills and events before activations begin.

Turn 5+: Do not roll Turn Events – apply **Enemy Reinforcements** automatically.

FIRST MISSION

Skip Mission Modifier and Deployment rolls. Play with Standard Conditions and Standard Insertion to learn the core mechanics.

TURN EVENTS (D6)

Roll at the start of each Turn. Turn 5+: always **Enemy Reinforcements**.

- Opportunity**
1 Unit spends up to 2 ACT on actions before Turn starts. Not its activation.
- Field Dressing**
1 Standing Player Unit regains 1 HIT.
- Strategic Command**
Player Squad gains +2 TO.
- Scrambled Comms**
Player Squad loses -2 TO (minimum 0).
- Overrun**
All NPC Units immediately perform 1 Action per their Behavior.
- Enemy Reinforcements**
Roll 1D6 → spawn 1 NPC Unit per the TL spawn table, Adjacent to a random Anchor.

OBJECTIVES (2D6)

Roll 2D6 at Mission start; re-roll doubles. Complete both for full MP.

- Control**
Place 3 Objectives on random Anchors. All Controlled at end of Turn 4.
- Activate**
3 Objectives on random Anchors. Activate (2ACT); Remove Objective. All 3 activated.
- Destroy**
Place 3 Objectives (ARM3 HIT2) on random Anchors. All Taken Out.
- Protect**
Asset (ARM3 HIT3) on a random Anchor. NPC priority target. Asset at ≥1 HIT at end of Turn 4.
- Search**
3 Search Objectives on random Anchors. Search (2ACT): 1st = found on 1; 2nd = found on 1-2; 3rd = found automatically. No TO re-rolls.
- No Survivors**
All enemy Units Taken Out.

MISSION MODIFIERS (D6)

Optional. Roll at Mission start. Add current TL to roll (max 6) for increased difficulty.

- Standard Conditions**
No special conditions.
- Fortified Position**
All NPC Units start in Cover and are considered in Cover (regardless of position) until they move for the first time.
- Fog of War**
Max Ranged range 8". Weapons with infinite range treated as RNG8".
- Blackout**
Cannot spend TO to modify dice ±1. All other TO uses (actions, skills, re-rolls) unaffected.
- Hostile Environment**
End of each Turn: each Unit within 6" of Center takes 2 damage.
- Blacksite**
No outside support. Do not roll Turn Events this mission – they do not apply for any reason, including Reinforcements in turns 5+.

DEPLOYMENTS (D6)

Roll at Mission start to determine where both squads deploy.

- Standard Insertion**
Player: South edge. NPC: North edge, in Cover if possible.
- Hot Drop**
Player: within 4" of Center. NPC: North edge, in Cover if possible.
- Flanked**
Player: South edge. NPC splits evenly across East + West edges, in Cover if possible.
- Deep Strike**
Player: within 4" of SE anchor. NPC: within 4" of NW anchor, in Cover if possible.
- Overwatch**
Player: South edge. NPC: anywhere on North half of battlefield, in Cover if possible.
- Encircled**
Player: within 4" of Center. NPC splits evenly across all 4 edges, in Cover if possible.

CAMPAIGN STRUCTURE

3 Operations × 3 Missions. Return to Homebase after each Operation.

Op 1 – TL1 · Missions 1.1 → 1.2 → 1.3 → Homebase
Op 2 – TL2 · Missions 2.1 → 2.2 → 2.3 → Homebase
Op 3 – TL3 · Missions 3.1 → 3.2 → 3.3 → Homebase

HOMEBASE (END OF EACH OPERATION)

- Remove all Deceased Units
- Remove one Injury from remaining Units
- Recruit new Units (max 100 GP total)
- Update Gear & Spoils of War selections

INJURIES (POST-MISSION, PER TAKEN OUT UNIT)

Roll **1D6** per Taken Out Unit. If the rolled Injury is one the Unit already has → **Deceased**. Remove from Squad; cannot be replaced until Homebase.

SPOILS OF WAR

Purchased at Homebase. **8 MP** each, applies to one specific Unit.

THE SWARM

SPAWN TABLE - THE SWARM

Threat Level 1

D6 Result	Units
1-3	4x Swarming
4-5	3x Drone (M)
6	1x Drone (R)

Threat Level 2

D6 Result	Units
1-3	6x Swarming
4-5	3x Drone (M)
6	3x Drone (R)

Threat Level 3

D6 Result	Units
1-2	6x Swarming
3-4	4x Drone (M)
5	3x Drone (M)
6	1x Brood Mother (R)

1. SWARMLING

ACT 2	ARM 2	HIT 1
-------	-------	-------

WEAPONS	ATT	SKL
✂ Claws (BRU2)	3	4

SKILLS	
Behavior - Melee	Expendable

Expendable: Squadmates may target an enemy Unit that is adjacent to this Unit in Ranged combat.

Behavior - Melee: - If there is a valid Melee target, attack that target in Melee combat (up to twice per activation)

- Move to be adjacent to closest Priority Enemy
- Move toward closest Priority Enemy, to cover if possible
- Dash toward closest Priority Enemy, to cover if possible

Priority Enemy:

- Unit carrying an objective
- Unit closest to an objective
- Unit with lowest remaining HIT

Swarming OGP

FV: 0

2. DRONE (M)

ACT 2	ARM 3	HIT 4
-------	-------	-------

WEAPONS	ATT	SKL
✂ Double Claws (BRU1 RND1 2MC)	3	4

SKILLS	
Behavior - Melee	Climber
Expendable	Swift

Expendable: Squadmates may target an enemy Unit that is adjacent to this Unit in Ranged combat.

Swift: Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

Climber: Each time this Unit climbs up, the vertical distance it moves counts for 2" less. Each time it climbs down, the vertical distance it moves counts for 4" less.

Behavior - Melee: - If there is a valid Melee target, attack that target in Melee combat (up to twice per activation)

- Move to be adjacent to closest Priority Enemy
- Move toward closest Priority Enemy, to cover if possible
- Dash toward closest Priority Enemy, to cover if possible

Priority Enemy:

- Unit carrying an objective
- Unit closest to an objective
- Unit with lowest remaining HIT

Drone 12GP

FV: 1

3. DRONE (R)

ACT 2	ARM 3	HIT 4
-------	-------	-------

WEAPONS	ATT	SKL
✂ Double Claws (BRU1 RND1 2MC)	3	4
⚡ Acid Spit (RNG4")	2	3

SKILLS	
Behavior - Ranged	Climber
Expendable	Swift

Expendable: Squadmates may target an enemy Unit that is adjacent to this Unit in Ranged combat.

Swift: Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

Climber: Each time this Unit climbs up, the vertical distance it moves counts for 2" less. Each time it climbs down, the vertical distance it moves counts for 4" less.

Behavior - Ranged: - If this Unit is Adjacent to an enemy Unit, Dash or Move away from all enemy Units

- If there is a valid Ranged target, attack Priority Enemy in Ranged combat (up to twice per activation)
- Move to cover with Line of Sight on Priority Enemy
- Dash to cover with Line of Sight on Priority Enemy

Priority Enemy:

- Unit carrying an objective
- Unit closest to an objective
- Unit with lowest remaining HIT
