

RUINSTARS

RUINSTARS

1. INTRODUCTION

THE GALAXY IS IN RUINS

The stars are dying, the gods are silent, and the empires that once ruled the galaxy have crumbled into ash and echoes.

Across a fractured void of decaying worlds and haunted relics, scattered fireteams carry out the final orders of long-dead masters.

There is no hope of victory - only duty and the bitter certainty that each mission may be the last.

In the shadows of ancient horrors and cursed machines, elite squads wage desperate black ops in a war that has lost all meaning... but not all purpose.

Welcome to Ruinstars - where only ruins remain, and only war endures.

NOTE ON USE OF AI

Ruinstars is still in beta and includes select concept art and visuals generated with the aid of AI image tools. While these assets support visual development and thematic exploration, they are not final and all images will be replaced with art created by actual artists by the time the game is released.

WHAT IS THIS GAME?

Ruinstars is an open-source, fast-paced, miniatures-agnostic tabletop skirmish game set during the final age of the galaxy.

Players command small, hardened squads in high-lethality black ops missions across fractured star systems.

Fight in the shadows of dying gods, decaying empires, and forgotten horrors as the last battles rage.

GETTING STARTED

1. Download the Rules (or [Printer-Friendly Version](#))
2. Select your Faction
3. Build your Squads
4. Gather some dice (D6), your miniatures, and [tokens](#)
5. Play your first Mission!

2. CORE MECHANICS

DICE ROLLS

Ruinstars uses 6-sided dice for all rolls. These will be indicated throughout the rules as **D6**.

Some rolls will require more than one die. For those, the number of dice to roll will be indicated before **D6**.

For example, to indicate a roll of 3 dice: **3D6**. To indicate a roll of 1 die: **1D6**.

SUCCESSES AND FAILURES

When rolling against a character or weapon stat, a die roll is a success if its value is equal to or lower than that stat.

Irrespective of any modifiers or Stats, a die roll of **6** is always a failure.

Die rolls of **1** are always Critical successes and may have special effects depending on the roll in question (see Combat).

RE-ROLLS

Certain rules and events allow you to re-roll a die. In those cases, announce the die to be re-rolled, pick it up, and roll it again. Once a die is re-rolled, its result is final and it cannot be re-rolled again.

ALTERNATING ACTIVATIONS

During each Turn, Squads take turns Activating one Unit that has not yet been activated. For example, during each Turn:

- Squad A activates its first Unit and performs Actions
- Squad B activates its first Unit and performs Actions
- Squad A activates its second Unit and performs Actions
- Squad B activates its second Unit and performs Actions
- etc.

Once per Turn, if a Squad has fewer Standing Units than its opponent, it may choose to delay its next Activation. In this case, the Squad with more Standing Units activates its next Unit instead, then alternating Activations resume normally.

3. GAME CYCLE

A game of Ruinstars is played in the following order:

1. Mission Start

1. Select Mission

Select a Mission to play. All players must reach consensus on the Mission to play.

2. Select Squad

Select one of your Squads to take on the Mission

3. Prepare Battlefield

Set up your Battlefield according to the Mission's briefing. This includes placing buildings and other terrain features, placing objectives, and any other actions defined by the selected Mission.

2. Turns

Missions in Ruinstars generally last 4 Turns (see below).

3. Mission End

At the end of Turn 4, tally the total Mission Points for each Squad. The Squad with the highest number of Mission Points is declared the winner of the battle.

URNS

During each Turn:

1. Reset Tactical Orders to zero for both Squads. Tactical Orders do not carry over from Turn to Turn.
2. Start of Turn
 1. Mark all Units as Ready (not Activated)
 2. Resolve all "Start of Turn" actions or events
 3. Roll-off for Initiative. Lowest roll wins Initiative and will Activate first.
 4. Roll for Tactical Orders for the Turn
 5. The Squad with the Initiative rolls for the Battlefield's Events (if any) for this Turn
3. Unit activations
 1. The Squad with the Initiative activates their first Unit, then Squads alternate

activating their Units until all Units have been activated.

See also Alternate Activations.

4. End Of Turn

1. Resolve all "End of Turn" actions or events
2. Score Mission Points according to the selected Mission

ALTERNATE ACTIVATIONS

Ruinstars uses Alternate Activations:

During each turn, players take alternating turns to Activate their Squad's Units. So player 1 activates their first Unit, then player 2 activates their first Unit, followed by player 1 activating their second Unit etc. This ensures dynamic play and avoids having to wait long periods of time before you can actually *do* something with your Squad.

Each player takes alternating turns activating the Units in their Squad. For example, in order:

1. Player 1 activates their first Unit
2. Player 2 activates their first Unit
3. Player 1 activates their second Unit
4. Player 2 activates their second Unit
5. (etc)

At the start of each Turn, all Units are marked as "Ready". As each Unit completes their Activation, they are marked as "Activated".

In cases where one Squad has at least 2 more Standing Units than the other, the Squad with fewer Units may choose to delay one activation once per Turn. In that case, the Squad with more Units activates two of its Units in a row.

MISSION POINTS

Mission Points (MP) determine the winner of the battle. Each Mission will define conditions under which a Squad can score Mission Points. At the end of the Mission, the Squad with the most MP wins.

4. STAT CARDS

StatCards describe your Units and their Weapons with numerical values, and any special Skills they may have. In general, the higher the stat number, the better the Unit or Weapon.

Note that in the app and on the website, you can click or tap Specials to view what they mean, and Skills or Equipment to get their full description.

1. TOLAND STRAK

ACT 3	ARM 4	HIT 5	
WEAPONS		ATT	SKL
✂ Combat Knife (2MC) 1GP		2	4
⚔ Reaper (2RC) 5GP		4	5
SKILLS			
Leader 2*		Strategize* (1 ACT)	
SQUAD SPECIALTY			
Duty Before Death			
Duty Before Death: When this Unit reaches 0 HIT, it may perform one free basic or mission action before being removed from the battlefield.			
Leader 2: This Unit gains +1 HIT, +1 RSK, +1 MSK, and Leader 2: While this Unit is Standing, you may roll an additional 2 dice to determine Tactical Orders every turn.			
Strategize (1ACT): This Unit's Squad gains +1 TO.			
Strike Trooper 13+6GP			
		 0 XP	

UNIT STATS

- ACT - Action Points

The maximum number of Action Points this Unit can spend on Actions during its activation.

- ARM - Armor

Indicates how well this Unit resists damage during combat.

When rolling Armor Saves, results of this stat or lower are successful.

- HIT - Hit Points

The Unit's number of Hit Points. When a Unit reaches zero **HIT**, it is Taken Out and removed from the battlefield (see Combat).

If a Unit has at least 1 **HIT** remaining, it is considered to be Standing.

- GP - Gear Points

The total cost in Gear Points (GP) for this Unit.

Note that each special (e.g. **2RC**) and skill (e.g. "Duty Before Death") can be clicked or tapped to view their detailed description.

For example:

- Toland Strak is a Strike Trooper
- He can perform 3 Actions (**ACT**) during each of his activations.
- Each time he is the target of Combat and rolls Armor Saves, each result of 4 or less (**ARM**) is a successful Save.
- He starts with 5 Hit Points (**HIT**).
- He has the skill Duty Before Death.

WEAPON STATS

- ✂/⚔ - Weapon Type

✂ indicates a Melee weapon, ⚔ indicates a Ranged weapon.

- ATT - Attacks

How many Dice are rolled each time this Weapon is used.

- SKL - Skill

Indicates the skill of this Unit when using this Weapon. Rolls that are equal to or less than this value are successful strikes.

- (SPECIAL) - Weapon Specials

Specials for this weapon are listed next to its name.

For example:

- Toland Strak's **Reaper** is a Ranged weapon (⚔).
- Each time it is used, Toland Strak rolls 4 dice (**ATT**).
- Each result of 5 or less (**SKL**) is a success.

SKILLS

Some Units will have Skills listed on their StatCard. These are unique properties of that Unit that may allow them to perform a specific unique Action, or gain a bonus (or debuff) for certain game mechanics.

- Skills that have a **ACT** cost can be performed using the Unit's **ACT** Stat or a Tactical Order, or a combination of both.
- Skills that have a **TO** cost cannot be performed using the Unit's **ACT** Stat; they must be performed by spending Tactical Orders.
- Skills and Equipment that do not have an **ACT** or **TO** cost are passive skills that do not require spending an Action Point or Tactical Order.

5. ACTIONS

During its activation, a Unit can perform a number of Actions up to its **ACT** stat (see StatCards).

Each Action costs a number of Action Points or **ACT**.

Actions with an **ACT** cost can be performed by spending the Unit's **ACT** Action Points or the Squad's Tactical Orders, or any combination of the two (for example, if a Unit's skill costs 2 **ACT**, you can spend 1 **ACT** + 1 **TO** to perform that action).

Actions with a **TO** cost can only be performed by spending the Squad's Tactical Orders.

Each action costs its listed number of **ACT** the first time it is performed in a Unit's Activation. Each time that same action is repeated in the same Activation, it costs one additional **ACT**.

For example, a Unit with 3 **ACT** may perform 2 Moves in its Activation. The first Move costs 1 **ACT**, and the second one costs 2 **ACT**.

BASIC ACTIONS

All Units can perform the following Actions during their Activation:

Action	ACT	Description
Move	1	The Unit moves up to 3 Squares.
Dash	1	The Unit moves up to 1 Square. This movement follows the same rules as a <u>normal</u> Move.
Ranged Combat	1	The Unit makes a Ranged attack against a valid target. See <u>Ranged Combat</u> .
Melee Combat	1	The Unit makes a Melee attack against an Adjacent target. See <u>Melee Combat</u> .
Pick Up	1	The Unit picks up a marker or token in the Square it currently occupies.
Drop	1	The Unit drops a marker or token it is carrying in the Square it currently occupies.
Give	1	The Unit passes a marker or token to an Adjacent Squadmate. The Unit cannot perform this Action if it or its Squadmate are <u>Adjacent</u> to any enemy Units.
Open/Close Door	1	The Unit opens or closes an Adjacent door.
Mission Action	-	Mission Actions are special mission-specific Actions that can be performed according to the Mission Briefing.

TACTICAL ORDERS

At the start of each turn, each player rolls 3D6 and adds 1 die for each of the Squad's Units' **Leader** x Special Rule. For example, if your Leader is still in play and has the **Leader** 2 Special Rule, you would roll 5D6 for Tactical Orders (3 base dice for Tactical Orders plus 2 dice provided by your Leader).

If you do not have a Unit with the **Leader** Special Rule on the Battlefield, you do not get their Tactical Order bonus and just roll 3D6.

For each die result of 1-3, you will have one Tactical Order. Tactical Orders allow Units to perform more Actions than their **ACT** Action limit.

At the end of each Turn, any unused Tactical Orders are lost; they do not carry over to the following Turn.

Note that rolling for Tactical Orders cannot be modified by using Tactical Orders.

USING TACTICAL ORDERS

During a Unit's activation, you may spend any number of Tactical Orders you obtained for that Turn on more actions for that Unit.

Tactical Orders may be spent to:

- Perform a Unit's **TO** Skill. Unless otherwise indicated, **TO** skills cannot be performed more than once per Turn
- Perform an Additional Basic Action (Move, Dash, Shoot, Melee, etc.) during a Unit's Activation.
- Re-roll any one die for any of your rolls (including during one of your opponent's Units' Activations, for example during Melee combat).
- Change the result of one of your rolled dice by +/- 1. Note that this is stackable; you can spend 2 **TO** to reduce the result of a die by 2, or spend multiple **TO** on multiple dice in a given roll. Modifying a die roll in this way does not trigger roll-specific effects (e.g. reducing an Attack die roll of 2 to 1 does not mean it is a Critical success).

MISSION ACTIONS

Certain Missions will define special Actions that can be performed by Units. Read the Mission Briefing to determine if the Mission defines any such Actions.

6. MOVEMENT

BATTLEFIELD

The Battlefield is a 15x15 grid of 40mm or 1.5in Squares. All movement and distance/range measurements are done by counting Squares.

You can bring your own battlefield, or use our print-at-home [Battlefields](#) with the tiles and Square ready to go.

TILES

The Battlefield is divided into 9 equal Tiles, each composed of 5x5 Squares.

Some missions may describe their setup in terms of a Tile's position (e.g. "Western Tile", "Center Tile", "SouthEast Tile"). Before the mission, both players should agree which way is North on the Battlefield, then refer to this diagram to find the right Tile.

MOVEMENT

When a Unit moves on the Battlefield, the maximum distance it can travel is **3** Squares. Movement can be done along any cardinal direction (North, South, East, West) or in diagonal (North-East, North-West, South-East, South-West).

SQUARES

All movement and distance measurements are measured in Squares. No need for tape measures, gauges, or rulers!

Using a grid provides simplicity of movement and measurement and to avoid imprecision in moving miniatures and checking weapon ranges. If you don't have a gridded play area, you can use a ruler and convert each Square to 2in.

ADJACENT SQUARES

All 8 Squares surrounding a given Square are considered to be **Adjacent** to that Square. When selecting a valid target for Melee combat, the attacker and its target must be in Adjacent Squares. Two Square that are on different elevations are not considered to be Adjacent.

If a wall that is 1 Square or taller is between two Squares, those two Squares are not considered to be Adjacent.

The Squares marked **A** are Adjacent to the Unit. The Squares marked **NA** are blocked by a wall and are not Adjacent to the Unit.

ATTACK OF OPPORTUNITY

When a Unit Moves or Dashes out of a Square that is Adjacent to an enemy Unit, that enemy may immediately perform a free Melee attack against the moving Unit. This is called an **Attack of Opportunity**.

If the moving Unit is Adjacent to multiple enemies, only one of those enemies may perform an Attack of Opportunity, though they still get support in the Melee Combat Action.

The moving Unit may choose to spend some or all of its remaining movement Squares to blunt the attack. For each Square of movement it spends in this way, reduce the number of attack dice the enemy rolls (the weapon's **ATT** stat) by **1**.

DISTANCES AND RANGE

To measure the distance between two Squares (for example, to check if a target is within the Range of a given Ranged Weapon), only measure on the Horizontal plane; ignore vertical distance.

The target is considered to be in range of that weapon if the distance in Squares is equal to or lower than the weapon's range.

If a Ranged weapon does not have a specified Range (**RNGx**), its range is infinite.

The Unit has a Ranged weapon with a range of **3**. The bugs marked in **green** are within range, while the bugs marked in **red** are out of range.

OCCUPIED SQUARES

Two Units cannot share the same Square; each Square can only be occupied by a maximum of 1 Unit.

A Unit cannot pass through a Square that is occupied by an enemy Unit. A Unit may pass through a Square that is occupied by a Squadmate, but cannot end its move on that Square. A Unit may end their movement in a Square that is Adjacent to an enemy Unit (to prepare for Melee Combat).

VERTICAL MOVEMENT

If there is a wall 1 Square high between two Squares (and they are on the same level), moving across that wall costs 2 Squares.

Climbing up vertical terrain costs 1 Square per vertical Square, plus 1 Square for the horizontal direction desired.

Note that for a Unit to climb a wall, that wall must be mutually agreed by all players to be Climbable at the start of the battle. Generally these walls will be easily identifiable with a ladder or other visual marker indicating it is climbable.

Climbing down a wall follows the same rules as climbing up, but vertical movement costs 1 less Square.

7. COMBAT

RANGED COMBAT

SEQUENCE

1. Select Target

1. The Attacker selects one of their Ranged weapons to use
 2. The Attacker selects a valid Target. The Target must:
 - Not be Adjacent to the Attacker or the Attacker's Squadmates
 - Be within the Weapon's range (**RNGx**)
 - Be in the Attacker's Line Of Sight
- A Unit may not perform this action if it is Adjacent to any enemy Units.

2. Roll Attacks

1. Roll a number of dice equal to the weapon's **ATT** (Attacks).
2. Each die result equal to or less than the weapon's **SKL** (Skill) is a successful strike and inflicts 1 point of Damage on the Target.
 - A roll of **1** is a **Critical Strike** and inflicts 2 points of Damage
 - A roll of **6** is always a failure

3. Roll Armor Saves

1. The Target rolls one die per point of Damage inflicted.
2. Each result equal to or less than the Target's **ARM** (Armor) is a successful Save.
 - A roll of **1** is a **Critical Save** and counts as 2 Saves
 - A roll of **6** is always a failure
3. Each unsaved point of Damage causes the Target to lose 1 **HIT**
4. If a Unit reaches zero **HIT**, it is Taken Out and removed from the battlefield.

MODIFIERS

Condition	Description
Cover	If the Target is in cover , the Target gets one automatic Armor Save (without having to roll it)
High Ground	If the Attacker is at least 2 Squares higher than its Target, the Target does not benefit from Cover

LINE OF SIGHT

A Target is said to be in an Attacker's **Line of Sight** if two uninterrupted lines can be drawn from one of the corners of the Square occupied by the Attacker to the two closest corners of the Square occupied by the Target.

A Unit cannot target an enemy Unit for Ranged Combat if there are other Units on that Line of Sight (i.e. a Unit cannot shoot "through" other Units).

SPECIAL CASES

These rules mean that in some cases, a Unit may be able to target an enemy Unit even if that Unit cannot target them in return.

The soldier may target the Bug in Ranged Combat, but the Bug may not target the soldier because the two closest corners of the soldier's Square are blocked by a wall.

COVER

If a Target is only partially visible to the Attacker (for example, there is a short wall between the two Units), that Target is said to be in **cover**. Cover only applies to Ranged attacks; there is no Cover benefit for Melee attacks.

A Target is in **Cover** if a piece of terrain blocks the Attacker's full view of the Target and occupies at least one side of the Target Square.

*The bug marked **C** is in Cover. The bug marked **NC** is not in Cover because the wall does not occupy any of the Target Square's edges.*

MELEE COMBAT

SEQUENCE

1. Select Target

1. The Attacker selects one of their Melee weapons to use
2. The Target must be Adjacent to the Attacker

2. Roll Attacks

1. Roll a number of dice equal to the weapon's **ATT** (Attacks).
2. Each die result equal to or less than the weapon's **SKL** (Skill) is a successful strike and inflicts 1 point of Damage on the Target.
 - A roll of **1** is a **Critical Strike** and inflicts 2 points of Damage
 - A roll of **6** is always a failure

3. Roll Armor Saves

1. The Target rolls one die per point of Damage inflicted.
2. Each result equal to or less than the Target's **ARM** (Armor) is a successful Save.
 - A roll of **1** is a **Critical Save**:
 - It blocks 1 point of Damage, and
 - Inflicts 1 point of Melee Damage on the Attacker. The Attacker then rolls their own Armor Saves for that returned Damage.
 - This effect can chain: if the Attacker then rolls a Critical Save, they return damage to the Target, and so on.
 - A roll of **6** is always a failure
3. Each unsaved point of Damage causes the Target to lose 1 **HIT**
4. If a Unit reaches zero **HIT**, it is Taken Out and removed from the battlefield.

MODIFIERS

Condition	Description
Support	For each of the Attacker's Squadmates Adjacent to the Target, the Attacker may re-roll one Attack die.

8. ITEMS

You may choose to add items to the battlefield that have special purposes and behaviors, and some missions may require the placement of items.

CRATES

If you choose to play with Crates, place 4 Crates on the battlefield in random Squares. To open a crate, a Unit must occupy the same Square as the crate and spend 1 ACT to open it. This counts as a Mission action. When opened, roll 1D6 to determine the contents of that Crate, then remove it from the Battlefield:

1. **TO:** The Unit's Squad immediately gains 1 TO.
2. **Stims:** The Unit may immediately perform a free Basic or Mission Action.
3. **Map:** The Unit or one of its Squadmates may immediately perform a Move Action.
4. **MedPack:** The Unit gains a MedPack. This MedPack can be used for 1 ACT during any of this Unit's activations. When used, the Unit or an Adjacent Squadmate regain 1D3 lost HIT. The MedPack may not be used if this Unit or the selected Squadmate are Adjacent to any Enemy Units. Once used, remove the MedPack from the Unit.
5. **Nothing:** The Crate is empty, nothing happens.
6. **Booby Trap:** The crate explodes, dealing 2 Ranged Damage to all Units in its current Square and all Adjacent Squares.

BARRELS

Barrels are explosive containers that can be attacked, causing an explosion.

If you choose to play with Barrels, randomly place 5 Barrels on the battlefield:

Barrels may be attacked in Ranged or Melee combat. The Barrel is a Unit that cannot roll Armor Saves; if it is attacked in combat and at least one strike is successful, it explodes. When a Barrel explodes, it causes an explosion dealing 2 Ranged Damage to all Units in its current Square and all Adjacent Squares, then it is removed from the Battlefield.

9. YOUR SQUAD

Select the SquadType that best fits the way you want to play and build your squad using the App. Squads are typically built with a maximum value of 100 total GP (including all unit and gear costs).

Your Squad can only include one Leader, and it cannot include more than 1 of each Unique Unit (marked with an asterisk *).

When selecting Gear for your Squad (Weapons, Equipment, etc), any item whose name ends with an asterisk (*) is Unique and cannot be added more than once to your squad.

Refer to the end of this rule book for the complete list of factions, SquadTypes, Units, and Gear.

FACTIONS

HUMAN HEGEMONY

INTERDICTORS

Elite commandos of the Human Hegemony, deployed where diplomacy was never an option. Interdictors operate behind enemy lines to eliminate threats, secure forbidden tech, and silence...

THE SWARM

DRONE POD

A hivemind of insectoid abominations bred only to feed, the Swarm descends on worlds in an endless tide, stripping them of all life and biomass. Mindless yet coordinated, disposable yet adaptive,...

CRIMSON SHROUD

SILENT CHOIR

A cross-species cult bound by relics, rites, and the psychic resonance of forgotten gods. The Crimson Shroud spreads like a thought-virus, infiltrating worlds, turning enemies into acolytes,...

NPC Mode lets you take on the battlefield even when no opponent is available.
Fight solo or cooperatively with a friend against a fully automated...

10. MISSIONS

A Mission is a single battle played between two (or more) Squads.

Whether you are playing a one-off Quick Play mission, a [Scripted Operation](#), or a long, epic [campaign](#), the rules for playing each Mission are the same:

1. Select a Primary Mission
2. (Optional) Select a Secondary Mission
3. Select a Battlefield
4. Set up your Squads
5. Play!

QUICK-PLAY MISSIONS

Quick-Play missions are perfect for pick-up or competitive play. You can also use these missions to build your own custom [campaign](#).

For more narrative play, see [Scripted Operations](#).

Each Primary mission is a single battle pitting your Squad against its enemies. Select (or randomly pick) a Mission from the list of standard missions below:

PRIMARY MISSIONS

ERADICATE

"No mercy. No survivors."
The battlefield is a crucible of war, where only the strongest will remain standing. Smoke rises from shattered ruins, and the air is thick with the acrid scent of plasma burns. No objectives. No negotiations. Only death. Each squad knows that by the end of this conflict, only one will be left standing, while the other will be nothing but a memory.

- SETUP**
Each Squad selects one of two opposing Battlefield edges to be their Deployment zone.
- DEPLOYMENT**
During Turn 1, when it is a Unit's turn to activate, deploy it on your Battlefield edge.
- VICTORY**
At the end of Turn 4, if a Squad Took Out all enemy units, that Squad scores 6 MP. In all other cases, the Mission is a Draw.

CONTROL

"Seize the ground. Own the fight."
Key strategic locations are up for grabs, and both squads are determined to claim them. These positions may be artillery nests, communication hubs, or tactical vantage points - whoever controls them controls the battlefield. Explosions send shockwaves through the war-torn streets as both sides fight tooth and nail, knowing that every inch gained is another step toward ultimate victory.

- SETUP**
Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Place 3 Objective markers in the center of the West, Central, and East tiles.
- DEPLOYMENT**
Both Squads deploy their Units on their selected Battlefield edge before Turn 1.
- VICTORY**
At the end of each Turn, Squads score 1 MP for each Objective they control. The Squad with the most MP by the end of Turn 4 wins the Mission.
- SPECIAL**
A Unit "Controls" an objective if it occupies the same Square as that objective and it is not Adjacent to any enemy Units.

BUG BOUNTY

"The hive stirs. Kill them before they overwhelm us."
Something is stirring beneath the battlefield - something ancient, hungry, and unstoppable. A horde of alien creatures has erupted from below, their chitinous bodies swarming over the land, attacking anything that moves. Both squads find themselves trapped in a desperate fight for survival. The mission? Kill as many of these creatures as possible before they are overrun. The battlefield is a feeding ground, and every shot fired is a battle against extinction.

- SETUP**
Deploy 3 Spawn Points, one in the center of the West, Center, and East Tiles. At the start of each Turn, each player rolls 1D3 for each Spawn Point and spawns that number of Bugs at that Spawn Point.
- DEPLOYMENT**
Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Both Squads deploy from their Battlefield edge before Turn 1.
- VICTORY**
Each time a Squad Takes Out a Spawn Point, that Squad scores 3 MP. Once all Spawn Points have been Taken Out, each time a Squad Takes Out a Bug, that Squad scores 1 MP. At the end of Turn 4, the Squad with the most MP wins the Mission.

SPECIAL

Unit	ACT	ARM	HIT
Bug	2	3	1
Weapon	ATT		SKL
(M) Bite		3	5

Bug Units are activated after each player Unit activation, alternating player control.

Item	ACT	ARM	HIT
Spawn Point	-	4	2

Spawn Points are treated as items. Spawn Points cannot be targeted in combat if there is at least one Bug Adjacent to that Spawn Point. If a Spawn Point is targeted in combat and is not Taken Out as a result of that combat, it regains all of its HIT. Each time a Spawn Point is targeted in combat and is not Taken out as a result, for each saved successful strike, spawn one Bug Adjacent to that Spawn Point.

RETRIEVE INTEL

"Secrets win wars. Get in, get out."

Somewhere in the heart of the battlefield lies a critical piece of intelligence - data that could shift the balance of power. One squad races to retrieve it, while the other fights to keep it from falling into enemy hands. The clock is ticking. One wrong move could mean the difference between victory and disaster. In the chaos of battle, can the attackers escape with the prize, or will the defenders crush their ambitions before they reach safety?

SETUP

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Place an Intel marker in the center of the central tile.

Select or randomly pick one Squad to be the Attacker, and the other to be the Defender.

DEPLOYMENT

During Turn 1, when it is a Unit's turn to activate, deploy it on your Battlefield edge.

VICTORY

The Attacker Squad score 6 MP when a Unit carrying the Intel marker walks off the edge of the Battlefield opposite the Attacker's deployment edge by the end of Turn 4.

The Defender Squad wins the mission in all other cases.

INTERCEPT

"No one escapes."

A lone operative carries intelligence that could change the course of the war. If they reach their destination, the enemy will gain a decisive advantage. But their pursuers are relentless, striking from the shadows and closing in with ruthless efficiency. The chase is on, across shattered landscapes and under the constant threat of ambush. The defenders must reach safety. The attackers must ensure they never do.

SETUP

Select or randomly pick one Squad to be the Attacker. The other Squad is the Defender. Defender secretly selects one of its Units to carry the Intel. This Intel may be dropped by any Unit carrying it. Any Unit may pick up the dropped Intel. If a Unit carrying Intel is Taken Out, place the Intel marker in its previously-occupied spot.

DEPLOYMENT

Before Turn 1, Attacker deploys all units anywhere in the Northeast, East, or Southeast Tiles.

During Turn 1, when it is a Defender Unit's turn to activate, deploy it on the outer edge of the Western tile. Defender always has the initiative in Turn 1.

VICTORY

If a Defender Unit carrying the Intel walks off the outer edge of the Eastern tile, the Defender Squad scores 6 MP.

In all other cases, the Attacker Squad scores 6 MP.

SPECIAL

A Unit may "walk off" the Battlefield by performing a Move (or Dash) of 1 Square from a Battlefield edge, but only if it is not Adjacent to an Enemy Unit.

ASSASSINATE

"Cut off the head, and the body dies."

Every army has a leader, a figure who commands, inspires, and ensures victory. Without them, morale crumbles and cohesion shatters. One squad has been given a singular, deadly mission: eliminate the enemy commander at all costs. But this will not be easy - the target is well-guarded, and their forces will fight to the last breath to protect them. Strike fast, strike true, and end this war with a single, decisive kill.

SETUP

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone.

DEPLOYMENT

During Turn 1, when it is a Unit's turn to activate, deploy it on your Battlefield edge.

VICTORY

The first Squad to Take Out the enemy Leader scores 6 MP if it happens before the end of Turn 4.

SABOTAGE

"Cut them off at the source."

Deep behind enemy lines, a squad is tasked with crippling vital infrastructure. Fuel lines, power grids, and command centers must be neutralized before reinforcements arrive. Every step is fraught with danger - enemy patrols scour the area, drones sweep the perimeter, and time is running out. Stealth and precision will ensure success, but failure means a swift and brutal counterattack.

SETUP

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone.

Place 3 Sabotage markers in the center of three random tiles.

Select or randomly pick one Squad to be the Attacker, and the other to be the Defender.

DEPLOYMENT

During Turn 1, when it is a Unit's turn to activate, deploy it on your Battlefield edge.

VICTORY

The Attacker Squad scores 2 MP for each marker that has been sabotaged by the end of Turn 4.

The Defender Squad scores 2 MP for each marker that was not sabotaged by the end of Turn 4.

SPECIAL

Sabotage (2 ACT): A Unit may Sabotage an Adjacent Sabotage marker if there are not Adjacent enemy Units. When a marker is sabotaged, remove it from the battlefield.

RIVALS

"This ends here."

Some battles are personal. Amidst the larger war, two warriors - each sworn to end the other - step onto the battlefield for their final confrontation. They have crossed paths before, leaving behind scars and grudges that cannot be ignored. Their squads fight around them, but the true battle is between these two rivals. Only one will walk away.

SETUP

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Each Squad's Leader is the Rival of the other Squad's Leader. If a Squad has no Leader (i.e. playing a Campaign and the Leader is Deceased), select any Unit in your Squad to be the Rival.

DEPLOYMENT

Both Squads deploy their Units on their selected Battlefield edge before Turn 1.

VICTORY

Squads score 6 MP when their Rival Unit is Taken Out.

Rivals cannot be the primary target of combat except if the attacker is the other Squad's Rival.

SCAVENGE

"Every resource counts in a war of attrition."

Scattered across the battlefield are vital supplies - ammunition, rations, medical kits. In the chaos of war, every bit of gear can mean the difference between survival and death. But retrieving these supplies is no simple task. The enemy is just as desperate, and they will fight tooth and nail to claim the resources first. The race is on. Who will scavenge the most before the battlefield turns into a graveyard?

SETUP

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Place 3 Supply markers in the center of the West, Center, and East tiles.

DEPLOYMENT

Both Squads deploy from their selected Battlefield edge before Turn 1.

VICTORY

Each time a Unit Scavenges a Supply marker, its Squad scores MPs equal to the turn number (1MP in Turn 1, 3MP in Turn3, etc.). That Supply cannot be scavenged again during this Turn. At the end of Turn 4, the Squad with the most MPs wins the Mission.

SPECIAL

Scavenge (1 ACT): The Unit Scavenges a Supply marker in the same Square it occupies. The Unit's Squad scores MPs equal to the Turn number (so 1 MP on Turn 1, 2 MP on Turn 2, etc). A Unit may not perform this action if it is Adjacent to an enemy Unit.

DEFEND

"Hold the line until help arrives - or die trying."

A beleaguered squad finds itself cornered, their backs against the wall as enemy forces close in from all sides. Their only hope: surviving long enough for extraction. The air crackles with tension as enemy shadows move through the ruins, searching for weaknesses in the defenses. Every second counts. Every bullet fired could be the last. If they falter, they will be wiped out. If they endure, they will live to fight another day.

SETUP

Set up terrain so that the central tile is at least half enclosed. This is the Defense area. Select or randomly pick one Squad to be the Attacker, and the other to be the Defender.

DEPLOYMENT

Defender deploys all their Units before Turn 1 in the center tile.

Attacker deploys all their Units before Turn 1 on any Battlefield edge.

VICTORY

At the end of Turn 4, each Squad adds up the remaining HIT of Standing Units on the central tile. The Squad with the highest total scores 6 MP. In case of a tie, the Defender scores 6 MP.

INFILTRATE

"Silent. Deadly. Unstoppable."

Under the cover of darkness, a squad moves through enemy territory, their goal clear - breach the defenses and secure a foothold within the enemy's base. Their foes are unaware, but not for long. The first shot fired will set off a chain reaction of chaos and violence. Can the attackers slip through and establish their presence, or will the defenders crush the intrusion before it begins?

SETUP

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Select one Squad to be the Attacker and the other to be the Defender.

DEPLOYMENT

Before Turn 1, Defender deploys their Units anywhere on their Battlefield Edge.

During Turn 1, when it is an Attacker Unit's turn to activate, deploy it on its Battlefield edge. Attacker has initiative in the first Turn.

VICTORY

At the end of Turn 4, if the Attacker has 2 or more Units on the Defender's Battlefield edge that are not Adjacent to any enemy Units, the Attacker score 6 MP. Defender score 6 MP in all other cases.

SECONDARY MISSIONS

Secondary missions are optional secret missions that can be selected to add variety to your game. Each Squad selects or randomly picks a secondary mission before the game begins, and only reveals it to the opponent once the Mission ends. Each secondary mission has its own unique objective and can break a tie or steal victory from the jaws of defeat.

DOMINATION

VICTORY

At the end of the Primary Mission, if more than half of your opponent's Units from the start of the Mission (excluding Deceased Units) have been Taken Out, score 2 MP.

HIGH GROUND

VICTORY

At the end of the Primary Mission, score 1 MP for each of your Units that are on terrain that is at least 2 Squares above the Battlefield ground.

VIP

VICTORY

At the start of the Primary Mission, select one of your Units to be your VIP (excluding your Leader) and reveal it to your opponent. At the end of the Primary Mission, if your VIP is still Standing, score 2 MP.

SURVIVAL

VICTORY

At the end of the Primary Mission, if more than half the Units in your Squad that started the Mission (i.e. excluding Deceased Units) are still Standing, score 2 MP.

RECRUIT

VICTORY

During the Mission, your Units may attempt to recruit an enemy Unit. Once per Mission, when your Units perform the Melee Combat action against an enemy Unit, if you have at least one successful strike, you may choose to inflict no damage on that enemy Unit. Instead, that enemy Unit is now Recruited. At the end of the Primary Mission, if that Recruited Unit is still Standing, score 2 MP.

BATTLEFIELDS

After selecting a Mission, pick or randomly select one of the following battlefields. The Mission will be played on that Battlefield.

The Galaxy is a dangerous and deadly place; each Battlefield has **Effects** that affect your Units.

Use your own battlemats, or use our print-at-home [Battlefields](#) with the tiles and Squares ready to go.

1 - THE RUINED CITY

SETUP

Dense terrain, ruined buildings and corners

EFFECTS

Collapse: At the start of each Turn after the first, select one random tile that has not collapsed. For each terrain element on that tile and for each Square of height of that terrain element, deal 1 Damage to each Unit within that terrain element's footprint or Adjacent to that terrain element, then remove it from the battlefield.

Once a bustling metropolis, the city now lies in ruins, its skyline broken by jagged silhouettes of collapsed towers and scorched facades. Streets that once thrived with life are choked with debris, the remnants of homes, businesses, and dreams reduced to ash and rubble. Shadows of destruction linger in the form of burnt-out vehicles and craters that scar the land, while the acrid smell of smoke and decay hangs in the air.

2 - THE FACILITY

SETUP

Corridors, tight quarters, small chambers.

EFFECTS

Darkness: At the start of each Turn after the first, select one random Tile. Until the end of the Turn, Units on that Tile cannot be targeted for Ranged combat if the Attacker is more than 3 Squares away.

The industrial facility stands as a monument to neglect, its once-thrumming machinery now silent and encased in layers of rust. Massive gears and conveyor belts hang motionless, their surfaces corroded and flecked with peeling paint, hinting at decades of disuse. Cracked windows let in shafts of pale light that illuminate the grime-covered floors littered with broken tools and tangled wires.

3 - THE JUNGLE

SETUP

Dense foliage, little to no elevated terrain.

EFFECTS

Stinging Cloud: At the start of each Turn after the first, select one random Standing Unit from each Squad. That Unit moves 1 Square three times in random directions (roll three times). If that Unit cannot make a valid move because of wall or other obstacle, it takes 1 Melee Damage.

The alien jungle pulses with a life both mesmerizing and menacing, its dense canopy blotting out the sky and casting the undergrowth in an eternal twilight. Massive, twisted trees with glowing veins of bioluminescent sap tower above, their roots forming treacherous mazes through the thick, spongy ground. Vines slither like serpents, some twitching with sentience, while predatory plants snap at anything that brushes their razor-edged leaves.

4 - THE ALIEN HIVE

SETUP

Caverns, tight quarters, no elevated terrain

EFFECTS

Noxious Gas: At the start of each Turn after the first, select one random Tile. All Units on that Tile take 1 Damage.

The alien hive looms like a grotesque monolith, its surface an undulating mass of organic textures that pulse faintly with a sickly bioluminescent glow. Towering spires of chitin and resin twist skyward, connected by sinewy bridges that shimmer with an oily sheen. The air is thick and humid, carrying a metallic tang that clings to the throat with every breath. Inside, winding tunnels spiral downward into a labyrinth of chambers, their walls coated in sticky, fibrous webs that pulse rhythmically, as if alive.

5 - THE CURSED TEMPLE

SETUP

Dense terrain, ruined buildings and corners.

EFFECTS

Cursed Spirits: At the start of each Turn after the first, select one random Unit from each Squad. That Unit is overtaken by the temple's restless spirits and immediately attacks the closest Unit in Combat, SquadMate or enemy.

The cursed temple rises from the earth like a jagged scar, its crumbling stone walls etched with the maddening sigils of ancient, terrible gods. A perpetual gloom surrounds the structure, as if sunlight dares not touch its malevolent facade. Its towering spires are wrapped in withered vines, and its gateways yawn like the gaping mouths of forgotten horrors. Inside, the air is suffocating and thick with the scent of damp stone and decayed offerings. Faint whispers echo through the dark corridors, carrying fragmented words in a language long lost to time.

6 - NO MAN'S LAND

SETUP

Open terrain, trenches, long lines of sight.

EFFECTS

Artillery Strike: At the start of each Turn after the first, select one random Tile. All Units on that Tile take 2 ranged Damage.

A barren expanse scarred by endless war, No Man's Land stretches between the shattered frontlines of long-dead armies. The ground is churned to mud and ash, cratered by orbital barrages and scarred by the rusting skeletons of tanks and walkers. Jagged trench lines crisscross the battlefield like open wounds, some still slick with blood and oil. Barbed wire tangles and sun-bleached corpses mark the no-go zones, while distant artillery thunders like the last breath of a dying god. Visibility is cruelly clear; any movement invites death from a mile away. There is no cover, no mercy. Only survival, moment to moment.

11. CAMPAIGNS

CAMPAIGN STRUCTURE

A Campaign is composed of three Operations, and each Operation is composed of three Missions.

At the end of each Operation, your Squad returns to Homebase to heal injuries, resupply, and recruit new Units into the Squad.

To build a Campaign, randomly select the nine missions from the list of Primary Missions.

OPERATIONS

Each Operation sees your Squad sent to a location to execute three Missions. All three Missions in a given Operation occur on the same Battlefield.

While on an Operation, your Squad is in the field and cannot change its Units or Gear selections.

Once the third Mission of an Operation is done, your Squad returns to Homebase to heal injuries, make new Gear selections, and recruit new Units.

HOMEBASE

At the end of each Operation, your Squad returns to homebase.

During Missions, your Squad will earn XP and GP. These cannot be spent on any Gear or Units until your Squad returns to Homebase.

- Add 2 GP to your Squad's Max GP + 2 GP for each Victory in the previous Operation
- Remove all Deceased Units from your Squad
- Remove all Injuries from all (non-Deceased) Units
- Recruit new Units into the Squad
- Make changes to your Squad's selected Gear and Spoils Of War (for eligible Units). Units may select one Spoil of War for each increment of 5 XP.

SAMPLE CAMPAIGN

- Operation 1 - The Facility
 - Mission 1.1 - Bug Bounty
 - Mission 1.2 - Retrieve Intel
 - Mission 1.3 - Intercept
- Homebase
- Operation 2 - The Ruined City
 - Mission 2.1 - Rivals
 - Mission 2.2 - Scavenge
 - Mission 2.3 - Control
- Homebase
- Operation 3 - No Man's Land
 - Mission 3.1 - Defend
 - Mission 3.2 - Infiltrate
 - Mission 3.3 - Eradicate

SPOILS OF WAR

For each increment of 5 XP earned, a Unit may take another Spoil Of War when it returns to Homebase at the end of an Operation.

For example, a Unit with 13 XP can take 2 Spoils of War.

- **ACCURATE 1**
This Unit may re-roll up to 1 of its Ranged Combat attack dice. This is cumulative with other Accurate specials (e.g. on this Unit's weapons).
- **BRUTAL 1**
This Unit may re-roll up to 1 of its Melee Combat attack dice. This is cumulative with other Brutal specials (e.g. on this Unit's weapons).
- **COUNTER**
Each time this Unit is the target of a Melee Attack, if this Unit did not lose any HIT by the end of that Combat, it may immediately perform a Melee Attack against the original Attacker.
- **DODGE 1**
Each time this Unit is the target of a Ranged Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Dodge specials.
- **MELEE ATT +1**
This Unit's Melee weapons gain + 1 ATT.
- **RANGED ATT +1**
This Unit's Ranged weapons gain + 1 ATT.
- **TECHNICIAN**
During each of its Activations, this Unit may perform one Mission action for 1 less ACT.
- **TOUGH 1**
Each time this Unit is the target of a Melee Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Tough specials.
- **TREASURE TROVE**
The Squad can spend an additional 5GP on Units and Gear. Increase the Squad's MaxGP by 5.

INJURIES

At the end of each Mission, each of your Units that were Taken Out during the mission may have a persistent injury. Randomly select a lasting effect this injury has on that Unit.

Note that when playing a campaign, all Injuries (except Deceased) are removed from your Units when they return to Homebase at the end of each Operation.

At the end of each Mission, for each Unit that was Taken Out, randomly select one Injury to apply to that Unit.

If the Injury is "Deceased", that Unit is removed from the Squad and cannot be replaced until the Squad returns to Homebase.

If the Injury is "Healed", remove one other Injury from that Unit. If it has no other Injuries, "Healed" has no effect. If the Injury is one that the Unit already had, that Unit is Deceased instead.

- **1 - HEALED**
Remove one Injury from this Unit.
- **2 - BODILY INJURY**
The Unit gets -1 MSK (minimum 1).
- **3 - HEAD INJURY**
The Unit gets -1 RSK (minimum 1).
- **4 - IMPAIRED MOVEMENT**
Each time the Unit performs the Move action, it moves 1 Square less.
- **5 - DAMAGED ARMOR**
The Unit gets -1 ARM (minimum 1).
- **6 - DECEASED**
The Unit has perished. Remove it from your Squad. It cannot be replaced until it returns to Homebase at the end of the Operation.

MEDALS

As your Squad completes Missions and achieves objectives, it grows in skill and available resources.

During each Mission, your Squad's Units gain XP from medals as described below. Each Medal can only be claimed once per Unit.

- ASSASSIN - 2 XP
This Unit took out an enemy Leader in a Mission.
- AVENGER - 2 XP
This Unit took out an enemy Unit after that enemy Unit took their Leader out.
- BLOODTHIRSTY 1 - 2 XP
This Unit took out two enemy Units in the same Turn.
- DEADLY FIGHTER - 2 XP
This Unit Took Out an enemy Unit as a result of a Critical Save in Melee combat.
- FIRST BLOOD 1 - 1 XP
This Unit was the first one to take an enemy out in a Mission in Operation 1.
- FIRST BLOOD 2 - 1 XP
This Unit was the first one to take an enemy out in a Mission in Operation 2.
- LAST STANDING - 2 XP
This Unit was the last Standing Unit in its Squad at the end of a Mission.
- OPERATION CLEAR - 1 XP
This Unit's Squad scored at least 2 victories in a single Operation.
- OVERKILL - 1 XP
This Unit Took Out an enemy Unit in Combat by inflicting 3 more unsaved successful strikes than that Unit's remaining HIT.
- OVERWHELMING FORCE - 2 XP
This Unit's Squad Took Out all enemy Units in a Mission without any of this Squad's Units being taken out.
- RESOURCEFUL - 1 XP
This Unit took out an enemy Unit using an Item (e.g. Barrel, Turret).
- SCAVENGER - 1 XP
This Unit opened a Crate in a Mission.
- UNDERDOG - 1 XP
This Unit took out an enemy with at least 5 more XP.
- UNTOUCHABLE - 2 XP
This Unit was still Standing at the end of a Mission and had all its HIT remaining.
- VETERAN 1 - 1 XP
This Unit was still Standing at the end of a Mission in Operation 1.
- VETERAN 2 - 1 XP
This Unit was still Standing at the end of a Mission in Operation 2.
- VICTOR 1 - 1 XP
This Unit's Squad won one Mission in Operation 1.
- VICTOR 2 - 1 XP
This Unit's Squad won one Mission in Operation 2.

12. SCRIPTED OPERATIONS

Instead of playing a primary mission or rolling your own Campaign, you may choose to play a Scripted Operation.

Scripted Operations are pre-built mini-campaigns tailored to specific squads and factions, and include branching missions based on successes and failures.

BROKEN CHAINS

Claimant Warband vs Silent Choir

The Silent Choir seeks to enthrall the leaders of the Claimants, binding them in chains of whispered compulsions. The Claimants rally to break this grip before their rebellion is shattered from within. Each battle swings between domination and freedom, until only one side remains in control of the...

BROOD WAR

Drone Pod vs Drone Pod

Rival hive broods clash, each seeking to establish dominance. Strategic ground is seized for spawning, brood chambers are razed, and the conflict culminates in a primal battle between the Brood Mothers themselves. Only one strain will survive to spread its genes across the stars.

DA BIGGEST KRUMP

Krumpfists vs Krumpfists

The clans clash in a brutal contest to decide who's boss. Loot piles are smashed, brawls erupt across the field, and the last warband standing will claim the right to lead. There's no subtlety here, just a whole lotta krumpin'.

DARK RITUAL

Silent Choir vs Interdictors

Centered around an ancient artifact and a blasphemous summoning ritual. The Interdictors seek to deny the Choir at every turn, while the Choir strives to complete their rite no matter the cost.

GHOSTS OF THE PAST

Claimant Warband vs Relict Wardens

The Claimants scavenge through ruined cities, searching for salvage to fuel their rebellion. But in these same ruins, the Wardens return to reclaim their ancient artifacts. What begins as a chance encounter soon becomes a desperate contest over relics of power.

INFESTATION

Interdictors vs Drone Pod

The Hegemony seeks to root out the Swarm infestation, while the Swarm fights for survival and dominance.

IRON BREAK

Relict Wardens vs Krumpfists

The Wardens strive to restore their ancient fortresses, reactivating long-dormant pylons of power. The Krumpfists come crashing in for loot and the thrill of battle, eager to smash stone and bone alike. Only one side will hold the ruins when the dust settles.

POWER GRAB

Interdictors vs Krumpfists

The Grutak raid deep into Hegemony territory, hungry for loot, dominance, and the thrill of proving who's strongest. The Interdictors scramble to protect convoys, sabotage raids, and break the mob before it grows out of control.

SPLINTER GROUP

Interdictors vs Interdictors

Accusations of heresy and corruption splinter the ranks, and brother turns against brother. Each side believes itself the true loyalists, but only one squad will emerge to carry the banner forward.

TERROR ATTACK

Interdictors vs Claimant Warband

A Claimant Warband plots a devastating terror strike, assembling explosives and preparing to unleash them upon the Hegemony. The Interdictors must intercept, contain, and dismantle the threat before the rebellion's strike shakes the sector.

13. GLOSSARY

Activation

The process during a Turn where a Unit performs Actions. A Unit is "Activated" once it has taken its turn and cannot be Activated again that Turn.

Action Point (ACT)

Points a Unit spends to perform Actions during its Activation. Each Unit has a maximum ACT value listed on its StatCard.

Armor Save

A die roll made when a Unit is hit in Combat to prevent Damage. A result equal to or less than the Unit's ARM stat is a success.

Battlefield

The game board on which the Mission is played.

Campaign

A series of Missions grouped into Operations. Units gain Medals, XP, GP, Injuries, and Spoils of War during Campaign play.

Critical Strike

A Combat die roll of 1. Automatically inflicts double Damage (2 points) instead of 1. May have special effects.

Critical Save

A Save die roll of 1. Counts as 2 Saves in Ranged Combat, and causes returned Damage in Melee Combat.

Damage

Damage inflicted during Combat. Resolved by rolling Armor Saves.

Deceased

A Unit is Deceased if it has been permanently removed from the Squad due to being Taken Out in a Mission and failing its Injury roll.

Effect

A special battlefield rule or ongoing condition applied by the selected Battlefield or Mission.

Elevation

The vertical distance of a terrain feature. Relevant for determining high ground, climbing, adjacency, and line of sight.

Gear

The various Weapons, Skills, and Abilities available to a Unit.

Gear Points (GP)

The point value used to build Squads. Each Unit and item of Gear costs a certain amount of GP. The standard limit is 100 GP per Squad.

Initiative

Determines which Squad activates a Unit first in each Turn. Decided by a roll-off at the start of the Turn.

Item

A game element placed on the Battlefield that can be interacted with (e.g. Crates, Spawn Points, Barrels).

Leader

A single Unit in a given Squad that is the Squad's Leader. Leaders contribute extra dice to Tactical Orders each Turn and are often high-value targets.

Line of Sight (LoS)

A Unit has Line of Sight to a Target if two unobstructed lines can be drawn from its base to two opposite edges of the Target's base.

Mission Point (MP)

Points awarded for completing objectives. The Squad with the most MP at the end of a Mission wins.

Narrative Gear

Special campaign-only gear, effects, or injuries enabled in Campaign mode. Includes Spoils of War and persistent Injuries.

Special (Weapon Special)

An abbreviation or keyword attached to a weapon that indicates a rule or effect beyond base stats (e.g. 2RC, HVY, RNG3).

Spoils of War

Permanent bonuses earned by Units through campaign XP. Examples include Accurate, Brutal, or Technician.

Standing

Opposite of "Taken Out". A Unit is considered Standing if it has 1 or more HIT remaining and has not been Taken Out.

StatCard

A Unit's profile listing all of its combat stats, weapons, skills, and cost.

Tactical Orders (TO)

Extra resources rolled at the start of each Turn. Used to perform bonus actions, re-rolls, or TO-only skills.

Taken Out

Opposite of "Standing". A Unit is Taken Out when its HIT is reduced to 0. It is removed from the battlefield and may receive an Injury during campaign play.

Tile

See Battlefield Tile. Each battlefield is divided into 9 tiles that may affect setup and effects.

Turn

A phase of the game during which both Squads alternate activating Units. Each game typically consists of four Turns.

Unit

An individual model in a Squad. Each Unit has its own StatCard, can perform Actions, and can be affected by Skills, Gear, or Effects.

14. PLAYING WITHOUT A GRID

While Ruinstars is designed for square-grid battlefields, you can also play on a traditional open table using rulers or tape measures. Use the following conversions and guidelines.

BASIC CONVERSION

- 1 Square = 2 inches (~5 cm)
- Adjacency: Units are "adjacent" if their bases are within 1" of each other.

MOVEMENT, RANGES, & TERRAIN

- A Move action covers up to 6 inches
- A Dash action covers up to 2 inches
- Apply terrain effects normally:
 - Difficult terrain adds +2 inches per move.
 - Impassable terrain cannot be crossed.
- Weapon Ranges: Convert directly (e.g., **RNG3** = 6 inches)
- Blast: Affects the targeted Unit and all Adjacent Units
- Line of Sight: Draw a line from one point on the attacker's base to two opposite points on the target's base.
- Cover: A Unit may benefit from Cover only if it is within 1" of the obscuring terrain element

TERRAIN HEIGHT

- 1 Level = 2 inches vertical distance.
- To climb up, add 2 inches of movement for each level.
- To climb down, the first 2 inches are free, but each additional level costs 2 inches.

Tip: When in doubt, round up. The goal is smooth play, not precise math. Both grid and measuring-table versions are fully supported; choose whichever is easiest for your group.

15. QUICK REFERENCE

TURN SEQUENCE

1. **Start of Turn:** Each Squad performs its "Start of Turn" abilities (if any)
2. **Tactical Orders:** Each player rolls for Tactical Order. Results of 1-3 are successes (+1 TO)
3. **Initiative:** Each player rolls-off for Initiative. Lowest result has the initiative
4. **Battlefield Events:** The player with the initiative resolves battlefield events
5. **Alternate Activations:** Starting with the player with the initiative, players take turns activating one unit at a time until all units have activated. Once per Turn, the Squad with the fewest Standing Units may delay one of its activations.
6. **End of Turn:** Each Squad performs its "End of Turn" abilities (if any)
7. **Reset:** Reset Tactical Orders (TOs) to zero

BASIC ACTIONS

- **Move (1ACT):** The Unit moves up to 3 Squares
- **Dash (1ACT):** The Unit moves up to 1 Square
- **Ranged Combat (1ACT):** The Unit performs a Ranged Combat attack against a valid target
- **Melee Combat (1ACT):** The Unit performs a Melee Combat attack against a valid target

A Unit may perform the same Action multiple times during its activation, but it costs 1 additional ACT each time it is repeated.

RANGED COMBAT

1. Select target: must be in range, in LoS, not adjacent to attacker.
2. Roll **ATT** dice: $\leq \text{SKL}$ = 1 damage (1 = crit, 6 = fail; crit = 2 damage).
3. Target rolls **ARM** saves per damage: $\leq \text{ARM}$ = save (1 = 2 saves, 6 = fail).
4. Cover: Target gains 1 auto-save if partially obscured.
5. High Ground: Attacker 2+ levels higher negates cover.

MELEE COMBAT

1. Select target: must be adjacent.
2. Roll **ATT** dice: $\leq \text{SKL}$ = damage (1 = crit, 6 = fail; crit = 2 damage).
3. Target rolls **ARM** saves: $\leq \text{ARM}$ = save.
4. Critical Save: blocks 1 damage *and* inflicts 1 Melee damage back (can chain).
5. Support: +1 attack re-roll per adjacent squadmate vs target.

CRATES

Roll 1D6, then remove the Crate from the Battlefield:

1. **TO:** The Unit's Squad immediately gains 1 TO.
2. **Stims:** The Unit may immediately perform a free Basic or Mission Action.
3. **Map:** The Unit or one of its Squadmates may immediately perform a Move Action.
4. **MedPack:** The Unit gains a MedPack. This MedPack can be used for 1 ACT during any of this Unit's activations. When used, the Unit or an Adjacent Squadmate regain 1D3 lost HIT. The MedPack may not be used if this Unit or the selected Squadmate are Adjacent to any Enemy Units. Once used, remove the MedPack from the Unit.
5. **Nothing:** The Crate is empty, nothing happens.
6. **Booby Trap:** The crate explodes, dealing 2 Ranged Damage to all Units in its current Square and all Adjacent Squares.

FACTIONS

Select the Faction that best fits the way you want to play and build your squad using the App. Squads are typically built with a maximum value of 100 total GP (including all unit and gear costs).

Your Squad can only include one Leader (with the **Leader** x Special), and it cannot include more than 1 of each Unique Unit (marked with an asterisk *).

When selecting Gear for your Squad (Weapons, Equipment, etc), any item whose name ends with an asterisk (*) is Unique and cannot be added more than once to your squad.

INTERDICTORS

"We are the mandate. We do not fail."

The Interdictors are elite commando units, precision instruments of sanctioned annihilation who answer to the silent, unseen, infallible Hegemon itself. Operating behind enemy lines, they are tasked with critical strike missions: assassinating rebel leaders, sabotaging planetary infrastructure, disabling artifact vaults, or seizing xeno-tech before it spreads. They operate in shadows and leave nothing standing.

Drawn from the Hegemony's most loyal and lethal operatives, Interdictor squads are self-sufficient, heavily armed, and trained to adapt.

SQUAD SPECIALTY

Duty Before Death

SKILLS

- **Duty Before Death**

When this Unit reaches 0 HIT, it may perform one free basic or mission action before being removed from the battlefield.

- **Leader 2***

This Unit gains +1 HIT, +1 RSK, +1 MSK, and Leader 2: While this Unit is Standing, you may roll an additional 2 dice to determine Tactical Orders every turn.

- **Brutal**

This Unit's Melee weapons gain Brutal 1 (BRU1).

- **Relay Order***

This unit may spend 1 ACT to issue an order to a SquadMate in its Line of Sight. That SquadMate immediately performs a Free Basic Action, then this unit's activation is resumed. This Unit cannot perform this action if this Unit is Adjacent to any enemy Units.

- **Grenade***

Select one Square on the battlefield visible to and within 3 Squares of this Unit. Inflict 2 Damage to all Units on that Square and all Adjacent Squares.

This Unit may only perform this Action once per mission. This Unit cannot perform this Action while Adjacent to enemy Units.

- **Medpack***

Select either this Unit or an Adjacent Squadmate. That selected Unit recovers 1D3 lost HIT. This Unit cannot perform this action if this Unit or the selected Unit is Adjacent to any enemy Units.

- **Grav Belt**

This Unit's Heavy weapons don't limit its movement and it can move normally.

- **Technician***

During each of its Activations, this Unit may perform one Mission action for 1 less ACT.

- **Smoke Bomb***

This Unit carries a Smoke Grenade. Once per mission, this Unit may throw its Smoke Grenade by placing a Smoke token up to 3 Squares away from it and within its Line Of Sight. Until the end of the Turn, a cylinder of Smoke occupies that location with a radius of 1 Square. The Smoke cylinder blocks Line Of Sight and Units that are within the Smoke cylinder cannot perform Ranged Attacks against any other Units. This Unit may not perform this action while Adjacent to any enemy Units.

- **Strategize***

This Unit's Squad gains +1 TO.

DRONE POD

"One claw rips. A thousand claws erase."

The Swarm doesn't strike all at once. It infiltrates first.

Drone Pods are the first wave: fast-growing, semi-autonomous drones designed to soften resistance, overwhelm defenders, and prepare the environment for mass conversion. They are not smart, but they are brutally efficient — directed by hive-echoes and biological imperatives that ripple from distant queens or nodes. Some are specialized to tear through armor. Others spread viral mold or excrete corrosive spores. All are designed to be expendable. They are not born to win battles. They are born to open the way.

SQUAD SPECIALTY

Hive Mind

SKILLS

- **Leader 3**

While this Unit is Standing, you may roll an additional 3 dice to determine Tactical Orders every turn.

- **Hive Mind**

This Squad gets its leader's Leader effect even if the leader is Taken Out.

- **Overrun**

All other Units in this Squad (excluding this Unit) may immediately perform a Move action followed by a Melee attack. This can only be done once per mission.

- **Neural Command**

During each of its Activations, this Unit may choose to take no actions. If it does, it may choose 2 Squadmates to perform 1 Free Action each, or 1 Squadmate to perform 2 different Free Actions.

- **Infest**

After this Unit Takes Out an enemy in Melee Combat, place a Swarming Unit in the position that enemy Unit occupied.

- **Expendable**

Squadmates may target an enemy Unit that is adjacent to this Unit in Ranged combat.

- **Swift**

Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

- **Climber**

Each time this Unit climbs up, the vertical distance it moves counts for 1 Square less. Each time it climbs down, the vertical distance it moves counts for 2 Squares less.

- **Spawn**

This Unit cannot be added to your Squad before a Mission. Instead, it is added during Missions if the Brood Mother uses its Infest ability. At the end of each Mission, remove all Spawn Units from your Squad.

SILENT CHOIR

"They are already inside your walls. And inside your thoughts."

The Silent Choir is the Shroud's militant arm, psychic agents and ritual assassins used to neutralize resistance and purge those who cannot be turned. These squads are surgical, terrifying, and eerily calm. Their movements follow sacred geometries. Their words alter memories. Their weapons hum with ancient resonances. Where they strike, confusion follows. Friendly fire, hallucinations, screams from minds collapsing under pressure. Their role is not just to kill, it is to unmake belief. To destroy identity. To prepare the soil for the seed.

SQUAD SPECIALTY			
Silent Choir			

SKILLS

- **Relic Lash**

This Unit's Relic Blade gains Rending 1.

- **Compel**

Select one Unit within 3 Squares and in this Unit's Line of Sight. Perform one Melee or Ranged Combat Action as if you controlled that Unit. This can only be done once per Mission. This Unit may not perform this Action if it is Adjacent to any enemy Units.

- **Dissonance Shroud**

While this Unit is Standing, this Unit and all its Squadmates may reroll 1 Save die when they are the target of Ranged Combat.

- **Leader2**

While this Unit is Standing, you may roll an additional 2 dice to determine Tactical Orders every turn.

- **Misdirection**

Swap the position 2 Units in this Squad. This can be done at any time, including during an Enemy Unit's Activation, but only if this Unit is Standing. This can only be done once per Mission.

- **Silent Choir**

This Unit gains +1 ATT on its Melee weapons whenever its Leader is in its Line of Sight.

- **Dark Gaze**

Place a Dark Gaze token on the Tile currently occupied by this Unit. Until the end of the Turn, all enemy Units on that Tile get -1 ARM each time they are targeted in Ranged Combat. Remove the Dark Gaze token at the end of the Turn, or when this Unit is Taken out (whichever comes first). This can only be done once per Mission. This Unit may not perform this Action if it is Adjacent to any enemy Units.

- **Pain Exalted**

Select one Squadmate within 3 Squares of this Unit. That Unit regains 1 HIT and immediately performs a free Basic or Mission action. This can only be done once per Mission. This Unit may not perform this Action if it is Adjacent to any enemy Units.

- **The Face Of Truth**

All Adjacent enemy Units must move 1 Square directly away from this Unit. If an enemy Unit cannot move in that direction, inflict 1 Melee Damage on that enemy Unit instead.

- **Fate Shift**

While this Unit is Standing, you may reroll one Tactical Order die at the start of each Turn.

- **Immolate***

This Unit and all Adjacent Squadmates regain TD3 + 1 lost HIT. Inflict 2 DAM on all Adjacent Enemies. This can only be done once per Mission.

- **Swift**

Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

CLAIMANT WARBAND

"We carry old debts in new blood."

Claimant squads are ragged, improvised, and brutally effective. They fight dirty, ambushing from asteroid cover, hijacking orbital infrastructure, pillaging peaceful colonies, using semi-sapient machines as living shields. What they lack in polish, they make up for in sheer unpredictability.

Each warband is different: a mix of ancient relics, mutated biology, and stolen gear. They are bound by necessity, oath, or vengeance. Their cohesion is fluid. Their tactics brutal. But when they move, they move as one.

SQUAD SPECIALTY

Vengeful

SKILLS

- **Leader 2**

While this Unit is Standing, you may roll an additional 2 dice to determine Tactical Orders every turn.

- **Vengeful**

Each time this Unit performs a Combat action, it may reroll a number of attack dice equal to the number of Squadmates that have been Taken Out (max 3).

- **Take 'Em Down**

Target one Enemy. This Unit and all its Squadmates immediately perform a Free Ranged or Melee attack against that Enemy if it is a valid target. This can only be done once per mission.

- **Call of the Ancestors**

Until the end of the Turn, all Units in this Squad gain +1 ATT on their Melee weapons. This can only be done once per mission.

- **Grenade***

Select one Square on the battlefield visible to and within 3 Squares of this Unit. Inflict 2 Damage to all Units on that Square and all Adjacent Squares.

This Unit may only perform this Action once per mission. This Unit cannot perform this Action while Adjacent to enemy Units.

- **Accelerator Membrane***

This Unit gains +1 ACT (maximum 3).

- **Bladesmith***

This Unit's Melee weapon gains +1 STR.

- **Technician***

During each of its Activations, this Unit may perform one Mission action for 1 less ACT.

- **Jump Pack**

Once per Mission, this unit may spend 2 ACT to move up to 5 Squares in a straight line (orthogonal or diagonal), ignoring vertical movement and difficult terrain. This Unit may not perform this Action while Adjacent to an enemy, or if it is carrying an item (e.g. mission intel).

- **Imposing**

Each time this Unit is the target of a Melee Attack, the Attacker does not get any support modifiers from its Adjacent Squadmates.

- **Push**

Target an adjacent enemy. Inflict 2 Damage on that enemy, then move that enemy up to 2 Squares in any direction. If this causes the enemy to fall off terrain, it takes Damage equal to vertical distance it fell divided by 2.

- **Relay Order**

This unit may spend 1 ACT to issue an order to a Squadmate in its Line of Sight. That Squadmate immediately performs a Free Basic Action, then this unit's activation is resumed. This Unit cannot perform this action if this Unit or the selected Unit is Adjacent to any enemy Units.

- **Scanner**

Until the end of the Turn, enemy Units do not benefit from Cover.

- **Strategize**

This Unit's Squad gains +1 TO.

- **Protect The Kin**

One time per Turn, when a Squadmate of this Unit within 3 Squares goes to 0 HIT, roll 1D6. On a 2 or lower, that Squadmate is not Taken Out and has 1 HIT remaining.

- **Medpack**

Select either this Unit or an Adjacent Squadmate. That selected Unit recovers 1D3 lost HIT. This Unit cannot perform this action if this Unit or the selected Unit is Adjacent to any enemy Units.

RELICT WARDENS

"The past is the strongest weapon. We carry it in every gesture."

The Relict Wardens are the Revenants' shock-troops: ghostlike warriors clad in psionically-activated exo-armor. They do not speak. They do not run. They march in geometric formations older than language, carrying weapons shaped by will and memory.

Their presence distorts light. Their movements follow celestial alignments. Some say they are projections, echoes of ancient battles still playing out. Others say they are deathless, their minds distributed across timefolded memory-cores.

They appear where the Revenants reassert control: lost temples, vault-worlds, alien monoliths, derelict thrones.

SKILLS

• Leader 3

While this Unit is Standing, you may roll an additional 3 dice to determine Tactical Orders every turn.

• Arise!

At the start of each Turn, roll 1D6. On a 1 or 2, this Unit recovers 1 lost HIT.

• Defensive Weave

Each time an enemy Unit passes through or ends a move Adjacent to this Unit, inflict 1 Damage on that enemy Unit.

• Proxy

Each time this Unit makes a Ranged attack, if a Secundus SquadMate is visible to this Unit, you can treat that Secundus as the active Unit for the purposes of determining Line Of Sight.

• Technician*

During each of its Activations, this Unit may perform one Mission action for 1 less ACT.

• Mindstab

Select an enemy Unit in this Unit's Line of Sight. Until the end of the Turn, that selected enemy Unit cannot re-roll any of its dice (for Attacks, Armor Saves, etc). This can only be done once per Mission.

• Protect

Select a SquadMate or this Unit. Until the end of the Turn, the selected Unit is always considered to be in Cover. Each time the selected Unit would lose a HIT, roll 1D6: on a 1 or 2, that HIT is not lost. This can only be done once per Mission.

• Imperative

This Unit may target an enemy in Ranged Combat that is Adjacent to a SquadMate that is not the Prime Revenant.

• Phased Edge

This Unit's Bayonet gains RND1 - Rending: Up to 1 Critical Success count as 3 successful strikes instead of 2.

• Dodge 1

Each time this Unit is the target of a Ranged Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Dodge specials.

• Swift

Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

• No Equipment

This Unit cannot be equipped with gear that costs Gear Points (GP), does not gain XP, never get Injuries, and cannot take any Spoils Of War.

• Restore

A SquadMate within 3 Squares of this Unit immediately recovers 1D3 lost HIT. This Unit may not perform this Action in the same Turn in which it performed the Catalyse Action.

• Catalyse

A SquadMate within 3 Squares of this Unit immediately performs one Free Action. This Unit may not perform this Action in the same Turn in which it performed the Restore Action.

• Small

This Unit is always considered to be in Cover. This Unit may move through enemy Units.

KRUMPFISTS

"Subtlety's for things you don't want dead."

The Grutak Krumpfists are the blunt instruments of a species that doesn't believe in finesse. Formed from the loudest survivors of the loudest battles, Krumpfists are fielded when the warboss wants something wrecked quickly. They're not infiltrators in the traditional sense, they just arrive faster and louder than the main horde, using explosives, brute strength, and improvised tactics to rip open enemy lines. Their loyalty lies with whomever shouts the hardest and carries the biggest scrap-blade. Coordination is rare, but when one charges, the rest follow just because no one wants to miss the fun. They break things. They don't ask why.

SKILLS

- **Call Dat a Krump?**

Each time this Unit is the target of a Melee Attack, if this Unit did not lose any HIT by the end of that Combat, it may immediately perform a Melee Attack against the original Attacker.

- **Leader 2**

While this Unit is Standing, you may roll an additional 2 dice to determine Tactical Orders every turn.

- **Get 'em!**

Until the end of the Turn, all Units in this Squad gain +1 ACT and +1 Melee SKL. This can only be done once per Mission. This Unit cannot perform this Action while Adjacent to any enemy Units.

- **Get In Dere!**

Remove 1 HIT from an Adjacent Squadmate (excluding this Unit). That Squadmate immediately performs 2 Free Basic Actions, and one of those Actions must be a Combat Action. If that Unit cannot perform a Combat Action, that Action is lost. This Unit cannot perform this Action while Adjacent to any enemy Units.

- **Tough 1**

Each time this Unit is the target of a Melee Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Tough specials.

- **Relentless**

This Unit's Ranged Weapons gain Relentless.

- **Technician***

During each of its Activations, this Unit may perform one Mission action for 1 less ACT.

- **Wrekstatik**

When this Unit reaches 0 HIT, deal 2 Damage to all Adjacent Units (including Squadmates).

- **Stitch'em**

Select either this Unit or an Adjacent Squadmate. That selected Unit recovers 1D3 lost HIT. This Unit cannot perform this action if this Unit or the selected Unit is Adjacent to any enemy Units.

- **Yellbox**

All Squadmates within 3 Squares of this Unit may re-roll up to one Attack Die each time they perform the Melee Combat Action.

- **Prod**

Select one Adjacent Squadmate. That Squadmate may immediately perform one free Basic or Mission Action. This Unit cannot perform this Action while Adjacent to an enemy Unit.

- **Swift**

Each time this Unit performs the Dash action, it costs one less ACT. This means that the first time this Unit performs a Dash in each of its Activations, it costs zero ACT.

- **Dodge 1**

Each time this Unit is the target of a Ranged Combat attack, it may re-roll up to 1 of its Armor Saves. This is cumulative with other Dodge specials.

- **Weirdo**

This Unit cannot carry anything (e.g. Intel Markers), cannot take Spoils of War, never gets Injuries (treat it as "Healed" each time you roll for Injuries), cannot gain XP, and cannot perform Mission Actions or Control Objectives.

NPC Behavior - Ranged

SKILLS

• NPC Behavior - Melee

Activating NPC Units: After each player activation, that same player activates the next NPC Unit and follows its NPC Behavior.

NPC Behavior: Use these rules to determine this Unit's behavior. For each ACT, start at the top of the list and move to the next item if that action is not possible.

- If there is a valid Melee target, attack that target in Melee combat. This Unit may perform this action twice.
- Move + Dash (2 actions) to be adjacent to closest enemy Unit
- Move toward closest enemy Unit, to cover if possible
- Dash toward closest enemy Unit, to cover if possible

• NPC Behavior - Ranged

Activating NPC Units: After each player activation, that same player activates the next NPC Unit and follows its NPC Behavior.

NPC Behavior: Use these rules to determine this Unit's behavior. For each ACT, start at the top of the list and move to the next item if that action is not possible.

- If this Unit is Adjacent to an enemy Unit, Dash or Move away from all enemy Units.
- If there is a valid Ranged target, attack that target in Ranged combat. This Unit may perform this action twice.
- Move to cover with Line of Sight on an enemy Unit
- Move to cover with Line of Sight on an objective
- Dash to cover with Line of Sight on an enemy Unit
- Dash to cover with Line of Sight on an objective

SCRIPTED OPERATIONS

War rages across the stars. Squads clash in ruined cities, cursed temples, alien jungles, and forgotten fortresses. Yet not every battle is random. Some are part of carefully planned operations, chains of missions where each outcome shapes the next, where victory builds momentum, and defeat forces desperate gambits.

This section collects a series of tailor-made mini-campaigns for Ruinstars, each designed around specific factions and their rivalries.

These operations offer:

- Narrative arcs that tell a story through connected missions.
- Branching paths where success or failure leads to different challenges.
- Unique mechanics that go beyond simple control points: moving convoys, tug-of-war captives, collapsing strongpoints, dark rituals, and leader duels.
- Faction flavor that highlights the tactics, goals, and themes of each force.

Whether you're playing a quick three-mission arc or stringing multiple operations into a larger campaign, these scenarios bring new life and variety to your battles.

Use them as written, adapt them to your campaign, or draw inspiration to create your own.

FROM THE ARCHIVES OF THE WARFRONT

"Records tell us that history turns not on grand crusades, but on knife fights in forgotten ruins. A convoy lost. A leader enthralled. A shrine defiled. These are the sparks that ignite empires, the stains that never wash clean. Each squad is a thread in the weave of destiny, each skirmish a test of survival. Do not mistake these operations for small affairs; they are the crucibles where factions rise or die."

- Fragment of intercepted broadcast, author unknown

GHOSTS OF THE PAST

Scripted Operation:

≡ Claimant Warband vs. ≡ Relict Wardens

The Claimants scavenge through ruined cities, searching for salvage to fuel their rebellion. But in these same ruins, the Wardens return to reclaim their ancient artifacts. What begins as a chance encounter soon becomes a desperate contest over relics of power.

MISSION 1: SCAVENGERS AND SENTINELS

The Claimants fan out across the ruins, searching for valuable caches. But the Wardens are already here, reclaiming what is theirs. The first clash will decide who controls the treasures hidden in the rubble.

Battlefield: The Ruined City

SETUP

Place 3 Cache Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

Each Squad deploys from opposite Battlefield edges before Turn 1.

SPECIAL

Mission Action: Claim (2ACT)

A Unit Adjacent to a Cache may spend 2ACT to secure it for their side. Once Claimed, place a marker indicating its ownership. A Claimed marker may be reclaimed by the opposing Squad. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Cache is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if they own at least 2 Caches by the end of Turn 4. **Proceed to Mission 2A**
- The Relict Wardens win in all other cases. **Proceed to Mission 2B**

MISSION 2A: DENY THE RELICS

With caches secured, the Claimants must prevent the Wardens from retaking them. They know the relics are dangerous and they will destroy them if they must.

Battlefield: The Jungle

SETUP

Claimant Warband secretly marks three Units to be Relic Carriers. These Units carry one Relic each. If a Relic Carrier reaches zero **HIT**, it drops the Relic.

DEPLOYMENT

- Outer Claim deploy from the Southern battlefield edge before Turn 1.
- Relict Wardens deploy from the Northern battlefield edge before Turn 1.

VICTORY

- The Outer Claim wins if its Units are still carrying at least 2 Relics by the end of Turn 4. **Proceed to Mission 3A**
- The Relict Wardens win in all other cases. **Proceed to Mission 3B**

MISSION 2B: RECLAIM THE CACHES

The Wardens drive back the scavengers, sweeping the ruins to recover their relics. The Claimants fight to keep their prize or deny it to all.

Battlefield: The Jungle

SETUP

Relict Wardens secretly marks three Units to be Relic Carriers. These Units carry one Relic each. If a Relic Carrier reaches less than half of its **HIT**, it drops the Relic and it cannot be picked up again.

DEPLOYMENT

- Relict Wardens deploy from the Southern battlefield edge before Turn 1.
- Outer Claim deploy from the Northern battlefield edge before Turn 1.

VICTORY

- The Relict Wardens win if their Units are still carrying at least 2 Relics by the end of Turn 4. **Proceed to Mission 3A**
- The Outer Claim win in all other cases. **Proceed to Mission 3B**

MISSION 3A: BURN THE PAST

The Claimants resolve to erase what cannot be claimed. Fires spread through the ruins as they attempt to burn every last relic before the Wardens can stop them.

Battlefield: The Ruined City

SETUP

Outer Claim secretly marks 3 Units as Relic Carriers.
Place one Cursed Pit marker in the center of the Central tile.

DEPLOYMENT

- Relict Wardens deploy from the Southern battlefield edge before Turn 1.
- Outer Claim deploy from the Northern battlefield edge before Turn 1.

SPECIAL

Mission Action: Destroy (2ACT)

An Outer Claim Relic Carrier Adjacent to the Cursed Pit may spend 2ACT to Ignite it. At the end of each Turn, roll 1D6 for each Ignited Relic: on 3+, that Relic is destroyed. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if all 3 Relics are destroyed by the end of Turn 4.
- The Relict Wardens win in all other cases.

MISSION 3B: SANCTIFY THE RELICS

The Wardens gather their recovered relics to sanctify them in ancient rites, ensuring the Claimants can never threaten them again. The Claimants launch one last desperate assault to disrupt the ceremony.

Battlefield: The Cursed Temple

SETUP

Place 3 Altar Markers: one in the center of the West, Center, and East tiles.

Place a Relic atop each Altar.

DEPLOYMENT

- Relict Wardens deploy within 2 Squares of any Altar before Turn 1.
- Outer Claim deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Sanctify (2ACT)

Relict Warden Units may attempt to Sanctify (2ACT) a relic while Adjacent to an Altar. Place a Sanctify marker on that Relic. At the end of each Turn, roll 1D6 for each of the Sanctified Relics: On a 1 or 2, that Relic is successfully Sanctified. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Altar is Adjacent to any enemy Units.

VICTORY

- The Relict Wardens win if all 3 Relics are successfully Sanctified by the end of Turn 4.
- The Outer Claim wins in all other cases.

BROKEN CHAINS

Scripted Operation:

☰ Claimant Warband vs. ☰ Silent Choir

The Silent Choir seeks to enthrall the leaders of the Claimants, binding them in chains of whispered compulsions. The Claimants rally to break this grip before their rebellion is shattered from within. Each battle swings between domination and freedom, until only one side remains in control of the Claimants' destiny.

MISSION 1: THE ENSNARED LEADERS

The Choir has already begun its work, dragging Outer Claim leaders toward ritual chambers. The Claimants must intercept and rescue them before they are lost forever.

Battlefield: The Facility

SETUP

Place 3 Leader Tokens in the center of the Central Tile. Designate the Eastern battlefield edge as the **Choir Temple Edge** and the Western battlefield edge as the **Claimant Safe Edge**.

DEPLOYMENT

- Silent Choir deploy from the Eastern battlefield edge before Turn 1.
- Outer Claim deploy from the Western battlefield edge before Turn 1.

SPECIAL

Mission Action: Compel (2ACT)

A Silent Choir Unit Adjacent to a Leader Token may spend 2ACT to move it 2 Squares toward the Temple Edge. A Unit may not perform this Action if it is Adjacent to any enemy Units.

Mission Action: Rescue (2ACT)

An Outer Claim Unit Adjacent to a Leader Token may spend 2ACT to move it 2 Squares toward the Safe Edge. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Leader Token is Adjacent to any enemy Units.

Leader Tokens cannot be destroyed and may not be carried.

VICTORY

- The Silent Choir wins if at least 2 Leader Tokens are within 2 Squares of the Temple Edge before the end of Turn 4. **Proceed to Mission 2B**
- The Outer Claim wins if at least 2 Leader Tokens are within 2 Squares of the Safe Edge before the end of Turn 4. **Proceed to Mission 2A**
- If neither side achieves this, the side with more Tokens closer to their edge wins.

MISSION 2A: PURGE THE SHRINES

The Claimants press into the Choir's sanctum, where a great shrine pulses with malign power. The ritual is already underway; the Choir seeks to complete its corruption, while the Claimants fight to cleanse it.

Battlefield: The Cursed Temple

SETUP

Place 1 Central Shrine Marker in the center of the Central Tile. Place 4 Ritual Counters on the Shrine.

DEPLOYMENT

- Silent Choir deploy within 2 Squares of the Shrine before Turn 1.
- Outer Claim deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Corrupt Shrine (2ACT)

During Turns 1-2, the Silent Choir may perform this Action while Adjacent to the Shrine. Each success adds 1 Ritual Counter (max 6). A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Shrine is Adjacent to any enemy Units.

Cleanse Shrine (2ACT)

During Turns 3-4, the Outer Claim may perform this Action while Adjacent to the Shrine. Each success removes 1 Ritual Counter (min 0). A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Shrine is Adjacent to any enemy Units.

VICTORY

- The Silent Choir wins if the Shrine has 4 or more Ritual Counters at the end of Turn 4. **Proceed to Mission 3B**
- The Outer Claim wins if the Shrine has 2 or fewer Ritual Counters at the end of Turn 4. **Proceed to Mission 3A**
- If the Shrine has exactly 3 Counters, play 1 extra Turn; at the end, whichever side moved it furthest in their direction is the winner.

MISSION 2B: THE SPREADING BLIGHT

With Claimant leaders enthralled, the Choir's corruption seeps into the wilds. Idols are raised, radiating their influence across the land. The Claimants must shatter them before the rot spreads too far.

Battlefield: The Jungle

SETUP

Place 2 Idol Markers: one in the center of the Northwest Tile, one in the center of the Northeast Tile.

DEPLOYMENT

- Silent Choir deploy within 3 Squares of any Idol before Turn 1.
- Outer Claim deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Blight Aura: At the start of each Turn, all Units within 3 Squares of an Idol must roll 1D6. On a 5–6, they lose 1ACT this Turn.

Mission Action: Shatter Idol (2ACT)

A Unit Adjacent to an Idol may spend 2ACT to destroy it. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Idol is Adjacent to any enemy Units.

VICTORY

- The Silent Choir wins if at least 1 Idol remains standing at the end of Turn 4.
Proceed to Mission 3B
- The Outer Claim wins if both Idols are destroyed by the end of Turn 4.
Proceed to Mission 3A

MISSION 3A: CHAINS BROKEN

The Claimants surge through the ruins, desperate to free their kin. The Choir holds captives for the final ritual, but the rebels will not rest until their leaders are safe.

Battlefield: The Ruined City

SETUP

Place 3 Captive Markers: one in the center of each of the Northwest, North, and Northeast tiles.

DEPLOYMENT

- Silent Choir deploy within 2 Squares of any Captive before Turn 1.
- Outer Claim deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Free (2ACT)

An Outer Claim Unit Adjacent to a Captive may spend 2ACT to Free them. Place a Freed marker on the Captive. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Captive is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if at least 2 Captives are Freed by the end of Turn 4.
- The Silent Choir wins in all other cases.

MISSION 3B: SHACKLED REBELLION

The Choir's enthralled leaders are brought to the cursed temple for the final compulsion. If the ritual completes, the rebellion will be theirs to command. The Claimants launch a last, desperate attack to shatter the ritual chains.

Battlefield: The Cursed Temple

SETUP

Place 1 Ritual Track (off-board) starting at 0.

DEPLOYMENT

- Silent Choir deploy within 2 Squares of the Central Tile before Turn 1.
- Outer Claim deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Compel (2ACT)

Once per Turn, a Silent Choir Unit Adjacent to the Central Altar may spend 2ACT to advance the Ritual Track by 1. Max 6. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Altar is Adjacent to any enemy Units.

Mission Action: Disrupt (2ACT)

Once per Turn, an Outer Claim Unit Adjacent to the Central Altar may spend 2ACT to reduce the Ritual Track by 1. Min 0. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Altar is Adjacent to any enemy Units.

VICTORY

- The Silent Choir wins if the Ritual Track is 4 or higher at the end of Turn 4.
- The Outer Claim wins if the Ritual Track is 2 or lower at the end of Turn 4.
- If the Ritual Track is exactly 3, play 1 extra Turn; whichever side shifts it further in their direction is the winner.

BROOD WAR

Scripted Operation:

☰ Drone Pod vs. ☰ Drone Pod

Rival hive broods clash, each seeking to establish dominance. Strategic ground is seized for spawning, brood chambers are razed, and the conflict culminates in a primal battle between the Brood Mothers themselves. Only one strain will survive to spread its genes across the stars.

MISSION 1: SEEDS OF DOMINATION

The rival broods race to seize ground outside the hive — places to twist and transform into new spawning sites. The stronger swarm will claim this ground, setting the stage for the battles to come.

Battlefield: The Jungle

SETUP

Place 3 Strategic Point Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

Each Squad deploys from opposite battlefield edges before Turn 1.

SPECIAL

Mission Action: Infest (2ACT)

A Unit Adjacent to a Strategic Point may spend 2ACT to Infest it. Place a marker showing its control.

VICTORY

- A Squad wins if they control at least 2 Strategic Points at the end of Turn 4. **Proceed to Mission 2**

MISSION 2: RAZE THE BROOD

With ground secured, the victorious swarm seeded its spawning pools. The defeated Squad targets their brood chambers, the lifeblood of the enemy strain. If the brood is destroyed, the rival will wither.

Battlefield: The Alien Hive

SETUP

Place 3 Spawn Point Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

- The Squad that won Mission 1 deploys within 2 Squares of any Spawn Point. This is the defending Squad.
- The Squad that lost Mission 1 deploys from the Northern battlefield edge. This is the attacking Squad.

SPECIAL

Spawn Points are treated as items with **ARM 4** and **HIT 3**. They may be targeted in Combat.

VICTORY

- The attacking Squad wins if they destroy at least 2 Spawn Points by the end of Turn 4. **Proceed to Mission 3**
- The defending Squad wins in all other cases. **Proceed to Mission 3**

MISSION 3: LAST BROOD STANDING

The defending swarm holds what's left of its brood chambers. The rivals crash together one final time, their leaders circling in the carnage until only one remains alive to claim dominance.

Battlefield: The Alien Hive

SETUP

Place 1 Brood Core Marker in the center of the Central Tile.

DEPLOYMENT

- The Squad that won Mission 2 deploys within 2 Squares of the Brood Core. This is the defending Squad.
- The Squad that lost Mission 2 deploys from the Northern battlefield edge. This is the attacking Squad.

SPECIAL

- Only squad leaders may target each other in Combat.
- Other Units may not target enemy leaders.
- Leaders may freely target enemy non-leaders as normal.
- While Adjacent to the Brood Core, defending Units gain **+1 ATT**.

VICTORY

- The winner is the Squad that first Takes Out the enemy leader.

TERROR ATTACK

Scripted Operation:

Interdictors vs. Claimant Warband

A Claimant Warband plots a devastating terror strike, assembling explosives and preparing to unleash them upon the Hegemony. The Interdictors must intercept, contain, and dismantle the threat before the rebellion's strike shakes the sector.

MISSION 1: STOLEN CHARGES

The Claimants raid supply stores, gathering explosives for their plot. The Interdictors rush to intercept before the caches can be stolen away.

Battlefield: The Facility

SETUP

Place 3 Explosive Cache Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

Each Squad deploys from opposite battlefield edges before Turn 1.

SPECIAL

Mission Action: Seize Explosives (2ACT)

An Outer Claim Unit Adjacent to a Cache may spend 2ACT to claim it. Place a Claimed marker on the Cache. A Unit may not perform this Action if it is Adjacent to any enemy Units.

Mission Action: Secure Explosives (2ACT)

An Interdictor Unit Adjacent to a Cache may spend 2ACT to Secure it, removing it from play. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if they control at least 2 Explosives Caches at the end of Turn 4. **Proceed to Mission 2A**
- The Interdictors win in all other cases. **Proceed to Mission 2B**

MISSION 2A: ASSEMBLE THE BOMB

With explosives secured, the Claimants begin assembling their device. The Interdictors strike hard, desperate to dismantle it before it can be completed.

Battlefield: The Ruined City

SETUP

Place 1 Bomb Marker in the center of the Central Tile.

DEPLOYMENT

- Outer Claim deploy within 2 Squares of the Bomb before Turn 1.
- Interdictors deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Assemble (2ACT)

An Outer Claim Unit Adjacent to the Bomb may spend 2ACT to add 1 Assembly Counter (max 6). A Unit may not perform this Action if it is Adjacent to any enemy Units.

Mission Action: Dismantle (2ACT)

An Interdictor Unit Adjacent to the Bomb may spend 2ACT to remove 1 Assembly Counter (min 0). A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if the Bomb has 4 or more Assembly Counters by the end of Turn 4. **Proceed to Mission 3A**
- The Interdictors win in all other cases. **Proceed to Mission 3B**

MISSION 2B: HIDDEN STOCKPILES

The Interdictors have denied the initial raid, but the Claimants maintain hidden stockpiles in the wilds. If they recover them, the plan may yet succeed.

Battlefield: The Jungle

SETUP

Place 2 Stockpile Markers: one in the center of the Northwest Tile, one in the center of the Northeast Tile.

DEPLOYMENT

- Outer Claim deploy within 2 Squares of any Stockpile before Turn 1.
- Interdictors deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Destroy Stockpile (2ACT)

An Interdictor Unit Adjacent to a Stockpile may spend 2ACT to destroy it. Remove it from play. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Stockpile is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if at least 1 Stockpile is Claimed by the end of Turn 4. **Proceed to Mission 3A**
- The Interdictors win if both Stockpiles are destroyed. **Proceed to Mission 3B**

MISSION 3A: DETONATE THE DEVICE

The bomb is ready, and the Claimants push to plant and detonate it. The Interdictors' only hope is to defuse the device before it can be unleashed.

Battlefield: The Ruined City

SETUP

Place 1 Bomb Marker in the center of the Central Tile.

DEPLOYMENT

- Outer Claim deploy from the Northern battlefield edge before Turn 1.
- Interdictors deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Plant Bomb (2ACT)

An Outer Claim Unit Adjacent to the Bomb may spend 2ACT to Arm it. Place an Armed marker on the Bomb. A Unit may not perform this Action if it is Adjacent to any enemy Units.

Mission Action: Defuse (2ACT)

An Interdictor Unit Adjacent to an Armed Bomb may spend 2ACT to remove the Armed marker. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if the Bomb is Armed at the end of Turn 4.
- The Interdictors win in all other cases.

MISSION 3B: CONTAIN THE BLAST

The Claimants' terror strike is incomplete, but dangerous charges remain. The Interdictors work to secure and contain them, while the Claimants attempt to trigger whatever destruction they still can.

Battlefield: The Facility

SETUP

Place 3 Charge Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

- Outer Claim deploy within 2 Squares of any Charge before Turn 1.
- Interdictors deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Mission Action: Arm (2ACT)

An Outer Claim Unit Adjacent to a Charge may spend 2ACT to arm it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

Mission Action: Disarm (2ACT)

An Interdictor Unit Adjacent to an Armed Charge may spend 2ACT to Disarm it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Outer Claim wins if both Charges are armed at the end of Turn 4.
- The Interdictors win in all other cases.

INFESTATION

Scripted Operation:

Interdictors vs. Drone Pod

The Hegemony seeks to root out the Swarm infestation, while the Swarm fights for survival and dominance.

MISSION 1: BREACH AND INFILTRATE

The facility's lower levels are sealed. The Interdictors must breach the perimeter to gain access, while the Swarm defends the hatch and denies entry.

Battlefield: The Facility

SETUP

Place a Hatch marker in the center square of the central tile.

DEPLOYMENT

Interdictors deploy before Turn 1 on any battlefield edge. The Swarm deploys before Turn 1 within 3 squares of the Hatch marker.

SPECIAL

The Hatch is an item with **ARM 4** and **HIT 4** and may be targeted in Combat. If the Hatch reaches 0 HIT, it is breached.

Mission Action: Torch Breach (2ACT)

Once per Turn, a Unit Adjacent to the Hatch may spend 2ACT to remove 1 **HIT** from it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Interdictors win the Mission if the Hatch is breached before the end of Turn 4. **Proceed to Mission 2A**
- The Swarm wins in all other cases. **Proceed to Mission 2B**

MISSION 2A: DESTROY THE NESTS

Within the facility, three nests sustain the infestation. The Interdictors aim to destroy them to cripple the Swarm, while the Swarm must hold at all costs.

Battlefield: The Alien Hive

SETUP

Deploy 3 Spawn Points, one in the center of the West, Center, and East Tiles.

DEPLOYMENT

Each Squad selects one of two opposing Battlefield edges to be their Deployment zone. Both Squads deploy from their Battlefield edge before Turn 1.

SPECIAL

Spawn Points are treated as items with **ARM 4** and **HIT 2**. Spawn Points cannot be targeted in combat if there is at least one Swarm Unit Adjacent to that Spawn Point. If a Spawn Point is targeted in combat and is not Taken Out as a result of that combat, it regains all of its **HIT**.

VICTORY

- Interdictors win the Mission if all three Spawn Points are destroyed before the end of Turn 4. **Proceed to Mission 3A**
- Swarm wins the Mission in all other cases. **Proceed to Mission 3B**

MISSION 2B: ANOTHER WAY

With the direct route blocked, an alternate path must be secured. A control room holds the means to open access, but activation takes time and the defenders will not yield it willingly.

Battlefield: The Facility

SETUP

Place one Console in the center of each of the Northwest, North, and Northeast tiles.

DEPLOYMENT

The Swarm deploys its Units within 2 Squares of a Console before Turn 1. Interdictors deploy from the southern edge of the Battlefield before Turn 1.

SPECIAL

Mission Action: Activate Console (2ACT)

One Unit Adjacent to a Console may spend 2ACT to Activate that Console. A Unit may not perform this action if it is Adjacent to any enemy Units.

VICTORY

- Interdictors win the Mission if all three Consoles are activated before the end of Turn 4. **Proceed to Mission 2A**
- Swarm wins in all other cases. **Proceed to Mission 3B**

MISSION 3A: PURGE THE INFESTATION

With the facility's defenses collapsing, the Interdictors must eradicate the remnants of the Swarm while the Swarm must rally for survival.

Battlefield: The Ruined City

DEPLOYMENT

The Swarm deploys anywhere on the Battlefield before Turn 1. Interdictors deploy from the southern edge of the Battlefield before Turn 1.

VICTORY

- The Interdictors win the Mission if all enemy Units have been Taken Out by the end of Turn 4.
- The Swarm wins the Mission if at least one Unit remains Standing by the end of Turn 4.

MISSION 3B: HOLD UNTIL EVAC

The Interdictors operation has failed. They must hold out long enough for extraction, while the Swarm surge from every direction to overwhelm them.

Battlefield: The Ruined City

SETUP

Set up terrain so that the central tile is at least half enclosed.

DEPLOYMENT

Interdictors deploy all Units anywhere on the Central Tile. During Turn 1, when it is a Swarm Unit's Activation, deploy it on any Battlefield edge.

VICTORY

At the end of Turn 4, each Squad adds up the remaining HIT of Standing Units on the central tile. The Squad with the highest total wins the Mission. In case of a tie, the Swarm wins the Mission.

SPLINTER GROUP

Scripted Operation:

Interdictors

vs.

Interdictors

Accusations of heresy and corruption splinter the ranks, and brother turns against brother. Each side believes itself the true loyalists, but only one squad will emerge to carry the banner forward.

MISSION 1: THE HIDDEN TRAIL

The Loyalists pursue fragments of intelligence in the wilds, seeking the location of the Splinter Group's secret headquarters. But the traitors know they are being hunted, and will stop at nothing to protect their secrets.

Battlefield: The Jungle

SETUP

Place 1 Intel marker in the center of the central Tile.

DEPLOYMENT

Each Squad deploys from opposite Battlefield edges before Turn 1.

SPECIAL

Loyalists may pick up the Intel marker. If a Unit carrying the Intel marker is Taken Out, the marker is dropped in that Unit's Square.

VICTORY

- The Loyalists win if they are carrying the Intel Marker by the end of Turn 4. **Proceed to Mission 2A**
- The Splinter Group wins in all other cases. **Proceed to Mission 2B**

MISSION 2A: INFILTRATE THE HEADQUARTERS

The Loyalists strike at the Splinter Group's hidden fortress. Its gates are locked, its defenses prepared, but the Loyalists mean to breach the walls and expose the traitors within.

Battlefield: The Facility

SETUP

Place 1 Gate Marker in the center of the Eastern edge of the Central Tile. All Squares North and South of the Gate are considered an impassable wall. Units may shoot through those Squares, but may not move through them. All Squares East of the Gate are considered to be Ramparts: Units on those Squares should be considered to be 2 Squares above the western part of the battlefield and have High Ground (no cover when targeting enemies lower than them).

DEPLOYMENT

- Splinter Group deploys anywhere East of the Gate before Turn 1.
- Loyalists deploy from the Western battlefield edge before Turn 1.

SPECIAL

The Gate has **ARM 4** and **HIT 6**. It may be targeted in Combat.

Mission Action: Override Gate (2ACT)

Once per Turn, a Loyalist Unit Adjacent to the Gate may spend 2ACT to reduce its **HIT** by 1. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Loyalists win if the Gate is destroyed (reduced to 0 HIT) before the end of Turn 4. **Proceed to Mission 3A**
- The Splinter Group wins in all other cases. **Proceed to Mission 3B**

MISSION 2B: THE INFORMANT

The Splinter Group moves to silence a captured informant before they can betray their plans. The Loyalists race to extract them, for within lies the key to where the traitors will strike next, and where to find them and stop them.

Battlefield: The Ruined City

SETUP

Place 1 Informant Marker in the center of the Central Tile.

DEPLOYMENT

- Splinter Group deploys within 2 Squares of the Informant Marker before Turn 1.
- Loyalists deploy from the Southern battlefield edge before Turn 1.

SPECIAL

The Informant cannot be targeted, attacked, or destroyed; both sides require them alive.

Mission Action: Secure Informant (2ACT)

A Loyalist Unit Adjacent to the Informant may spend 2ACT to Secure them. Place a Secured marker on the Informant. A Unit may not perform this action if it is Adjacent to any enemies, or if the Informant is Adjacent to any Splinter Group Units.

At the end of the game, if the Informant is Secured and at least one Loyalist Unit is Standing within 2 Squares of the Informant, the Loyalists hold the Informant.

VICTORY

- The Loyalists win if they hold the Informant at the end of Turn 4. **Proceed to Mission 3**
- The Splinter Group wins in all other cases. **Proceed to Mission 3**

MISSION 3: RIVALS

The feud reaches its climax. The leaders of each faction have sworn a blood oath: only one will remain standing. Squads clash around them, but the duel of commanders will decide the future of the Interdictors.

Battlefield: No Man's Land

DEPLOYMENT

Each Squad deploys from opposite battlefield edges before Turn 1.

SPECIAL

- Only squad leaders may target each other in Combat
- Other Units may not target enemy leaders
- Leaders may freely target enemy non-leaders as normal

VICTORY

- The winner is the squad that first Takes Out the opposing Leader.

POWER GRAB

Scripted Operation:

Interdictors vs. Krumpfists

The Grutak raid deep into Hegemony territory, hungry for loot, dominance, and the thrill of proving who's strongest. The Interdictors scramble to protect convoys, sabotage raids, and break the mob before it grows out of control.

MISSION 1: LOOT THE CONVOY

The Interdictors' convoy rumbles across the battlefield, laden with weapons and ordnance. The Krumpfists swarm to board and loot it, even as its armored bulk crushes everything in its path.

Battlefield: No Man's Land

SETUP

The Convoy is represented by a large marker that covers 3x3 Squares and is 1 Square tall. It begins off-board. At the start of Turns 2, place the Convoy covering the central 3x3 Squares of the Western Tile. Inflict 3 Melee Damage on any Units that are directly West of it. The Convoy is unaffected by any battlefield events or effects.

DEPLOYMENT

- Interdictors deploy from the Western edge of the Northwest and Southwest tiles before Turn 1.
- Krumpfists deploy from the Northern and Southern battlefield edges before Turn 1.

SPECIAL

Convoy Movement: At the start of each Turn after the first, move the Convoy 1 Tile East. Any Units between its previous and new position are "run over", taking 3 Melee Damage. When the Convoy moves, any Units that are on it fall off, dropping down to the Square below it.

Mission Action: Loot Convoy (2ACT)

A Krumpfist Unit standing on the Convoy may spend 2ACT to loot it. This Action may be performed even if the Unit is Adjacent to enemy Units.

VICTORY

- The Krumpfists win if they perform at least 2 Loot Convoy Actions by the end of Turn 4. **Proceed to Mission 2A**
- The Interdictors win in all other cases. **Proceed to Mission 2B**

MISSION 2A: SMASH THE DEPOT

Emboldened by their raid, the Krumpfists storm an Interdictor strongpoint. Inside are the depots where the Hegemony stores its supplies. If the Krumpfists can smash enough of them, the victory will be theirs.

Battlefield: The Facility

SETUP

Place 3 Depot Markers: one in the center of each of the Northwest, North, and Northeast tiles.

DEPLOYMENT

- Interdictors deploy within 2 Squares of any Depot before Turn 1.
- Krumpfists deploy from the Southern battlefield edge before Turn 1.

SPECIAL

Depots are items with **ARM 4** and **HIT 3**. They may be targeted in Combat.

Mission Action: Sabotage Depot (2ACT)

A Krumpfist Unit Adjacent to a Depot may spend 2ACT to remove 1 **HIT** from it. A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Depot is Adjacent to any Interdictors.

VICTORY

- The Krumpfists win if at least 2 Depots are destroyed by the end of Turn 4. **Proceed to Mission 3A**
- The Interdictors win in all other cases. **Proceed to Mission 3B**

MISSION 2B: HOLD THE LINE

The Interdictors repulsed the first assault and fall back to hold a fortified line. The Krumpfists see weakness and rush to smash their defenses before their enemy can regroup.

Battlefield: The Ruined City

SETUP

Place 3 Strongpoint Markers in the center of the West, Center, and East tiles.

DEPLOYMENT

- Interdictors deploy within 2 Squares of any Strongpoint before Turn 1.
- Krumpfists deploy from the Northern or Southern battlefield edge before Turn 1.

SPECIAL

Strongpoints are items with **ARM 4** and **HIT 4**. They may be targeted in Combat.

Mission Action: Fortify (2ACT)

Once per Turn, an Interdictor Unit Adjacent to a Strongpoint may spend 2ACT to restore 1 lost **HIT** on it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

Mission Action: Smash (2ACT)

Once per Turn, a Krumpfists Unit Adjacent to a Strongpoint may spend 2ACT to smash it and remove 1 **HIT** from it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

At the end of the game, any Strongpoint with at least 2 **HIT** remaining is considered Held.

VICTORY

- The Interdictors win if at least 2 Strongpoints are Held at the end of Turn 4.
Proceed to Mission 3A
- The Krumpfists win in all other cases. **Proceed to Mission 3B**

MISSION 3A: GRUDGE KRUMP

The Interdictors' victories have eroded the Krumpfists Leader's influence and authority. To prove itself to its Squad and quell a mutiny, it swears a Grudge Krump to defeat the Interdictors' leader.

Battlefield: The Ruined City

DEPLOYMENT

- Each Squad deploys from one of two opposing battlefield edges before Turn 1.

SPECIAL

- Only squad leaders may target each other in Combat.
- Other Units may not target enemy leaders.
- Leaders may freely target enemy non-leaders as normal.

VICTORY

- The winner is the Squad whose leader survives while the opposing leader is Taken Out.

MISSION 3B: THE LAST BASTION

Flush with victory, the Krumpfists launch one last push against the Interdictors' bastion. The Hegemony must hold here or risk losing control of the entire sector.

Battlefield: The Facility

SETUP

Place 1 Bastion Marker in the center of the Central Tile.

DEPLOYMENT

- Interdictors deploy within 2 Squares of the Bastion before Turn 1.
- Krumpfists deploy from the Northern and Southern battlefield edges before Turn 1.

SPECIAL

The Bastion has **ARM 3** and **HIT 6**. It may be targeted in Combat.

Mission Action: Reinforce Bastion (2ACT)

Once per Turn, an Interdictor Unit Adjacent to the Bastion may spend 2ACT to restore 1 **HIT** to it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Krumpfists win if the Bastion is destroyed (0 HIT) by the end of Turn 4.
- The Interdictors win in all other cases.

DARK RITUAL

Scripted Operation:

≡ Silent Choir

vs.

≡ Interdictors

Centered around an ancient artifact and a blasphemous summoning ritual. The Interdictors seek to deny the Choir at every turn, while the Choir strives to complete their rite no matter the cost.

MISSION 1: THE SEARCH

Whispers of the artifact echo through the broken streets. The Silent Choir scours the ruins for the relic, while the Interdictors close in to halt the search. The one who holds the artifact controls the path to what comes next.

Battlefield: The Ruined City

SETUP

Place 1 Search Marker in the center of each of the West, Central, and East tiles.

DEPLOYMENT

Each Squad deploys from opposite Battlefield edges before Turn 1.

SPECIAL

Silent Choir Units may perform the following Mission Action:

Mission Action: Search (2ACT)

A Unit Adjacent to a Search Marker may spend 2ACT to search it. Roll 1D6. This roll cannot be modified or re-rolled by using TOs.

- On the first searched marker, the Artifact is found on a roll of 1
- On the second searched marker, the Artifact is found on a roll of 1 or 2
- On the third searched marker, the Artifact is found automatically

After searching a marker, remove it from the Battlefield. Once found, the Artifact is carried by the Unit that found it.

A Unit may not perform this Action while Adjacent to any enemy Units, or if the Search Marker is Adjacent to any enemy Units.

VICTORY

- The Silent Choir wins if they are carrying the Artifact at the end of Turn 4. **Proceed to Mission 2A**
- The Interdictors win in all other cases. **Proceed to Mission 2B**

MISSION 2A: BLOOD OFFERING

The Choir carries the relic into the warzone, aiming to satisfy the ritual's demand for blood. The Interdictors rush to prevent a massacre, but in this dark work even the Choir's own deaths could feed their cause.

Battlefield: No Man's Land

DEPLOYMENT

Each Squad selects one of two opposing Battlefield edges as their Deployment Zone. Both deploy before Turn 1.

VICTORY

- The Silent Choir wins if more than half of all Units (across both Squads combined) are Taken Out by the end of Turn 4. **Proceed to Mission 3A**
- The Interdictors win in all other cases. **Proceed to Mission 3B**

MISSION 2B: AMBUSH IN THE JUNGLE

Believing themselves safe with the artifact, the Interdictors vanish into the choking jungle. But the Choir lies in wait among the shadows, ready to strike and wrest the relic from their grasp.

Battlefield: The Jungle

SETUP

Before deployment, secretly mark one Interdictor Unit as the Artifact Carrier.

DEPLOYMENT

Before Turn 1, Silent Choir deploys all units anywhere in the Northeast, East, or Southeast Tiles. During Turn 1, when it is an Interdictor Unit's turn to activate, deploy it on the outer edge of the Western tile. Interdictors always have the initiative in Turn 1.

SPECIAL

The Artifact may be dropped if the carrier is Taken Out or voluntarily drops it. Another Unit may pick it up by moving Adjacent and spending 1ACT.

VICTORY

- The Silent Choir wins if they are carrying the Artifact at the end of Turn 4. **Proceed to Mission 2A**
- The Interdictors win in all other cases. **Proceed to Mission 3B**

MISSION 3A: THE SUMMONING

With the relic secured and blood spilled, the Choir reaches the cursed temple. At its profane altars they chant to awaken something terrible. The Interdictors charge in, knowing that if they fail here, the galaxy will pay the price.

Battlefield: The Cursed Temple

SETUP

Place 3 Altar Markers in the central squares of the West, Center, and East tiles.

DEPLOYMENT

Silent Choir deploys before Turn 1 within 2 Squares of an Altar. Interdictors deploy before Turn 1 on the Southern Battlefield edge.

SPECIAL

A Unit "Controls" an Altar if:

- The Unit is Adjacent to that marker,
- The Unit is not Adjacent to any enemy Units, and
- There are no enemy Units Adjacent to that Altar

VICTORY

- The Silent Choir wins if they control all 3 Altars by the end of Turn 4.
- The Interdictors win in all other cases.

MISSION 3B: SABOTAGE THE TEMPLE

The Choir's summoning has been thwarted, and now the Interdictors launch a final desperate strike. They will tear down the temple itself if they must, ending the ritual in fire and ruin. The Choir will defend their unholy ground with every last breath.

Battlefield: The Cursed Temple

SETUP

Place 3 Sabotage Markers central squares of the West, Center, and East tiles.

DEPLOYMENT

Silent Choir deploys anywhere within 3 Squares of a Sabotage marker before Turn 1. Interdictors deploy from any Battlefield edge before Turn 1.

SPECIAL

Mission Action: Sabotage (2ACT)

A Unit Adjacent to a Sabotage Marker may spend 2ACT to sabotage it. A Unit may not perform this Action if it is Adjacent to any enemy Units.

VICTORY

- The Interdictors win if all 3 markers are sabotaged by the end of Turn 4.
- The Silent Choir wins in all other cases.

DA BIGGEST KRUMP

Scripted Operation:

⌵ Krumpfists vs. ⌵ Krumpfists

The clans clash in a brutal contest to decide who's boss. Loot piles are smashed, brawls erupt across the field, and the last warband standing will claim the right to lead. There's no subtlety here, just a whole lotta krumpin'.

MISSION 1: GRAB DA LOOT

The Grutak gather to fight over a massive pile of loot. Whoever claims the most shinies will have the upper hand in the brawl to come.

Battlefield: The Ruined City

SETUP

Place 3 Loot Pile Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

Each Squad deploys from opposite battlefield edges before Turn 1.

SPECIAL

Mission Action: Grab Loot (2ACT)

A Unit Adjacent to a Loot Pile may spend 2ACT to claim it. The Unit's Squad gains 1MP. A Unit may not perform this action if it is Adjacent to any enemy Units.

VICTORY

- The Squad with the most MP by the end of Turn 4 wins the mission. In case of a tie, the Squad with the most remaining Standing Units wins the mission. In case of a tie, play one more Turn until a winner is clear. **Proceed to Mission 2**

MISSION 2: DA GOOD FIGHT

The winning mob pushes deeper, claiming the best fightin' ground. The rivals meet in the open, ready to prove who hits harder.

Battlefield: No Man's Land

DEPLOYMENT

Each Squad deploys from opposite battlefield edges before Turn 1.

VICTORY

The Squad with the most remaining Standing Units at the end of Turn 4 wins the mission. In case of a tie, play one more Turn until a winner is clear. **Proceed to Mission 3**

MISSION 3: WHO'Z DA BOSS?

Each mob raises totems to prove their claim to leadership. But in true Grutak fashion, the best way to prove you're boss is to smash the other mob's totems while keeping your own standing.

Battlefield: The Jungle

SETUP

- Place three Totem markers in the center of the Northeast, East, and Southeast tiles. These are Squad A's totems.
- Place three Totem markers in the center of the Northwest, West, and SouthWest tiles. These are Squad B's totems

DEPLOYMENT

- Each Squad deploys their Units within 3 Squares of their Totems before Turn 1.

SPECIAL

Totems are items with **ARM 4** and **HIT 3**. Totems may be targeted in combat. When a Totem reaches 0 **HIT**, it is destroyed.

Mission Action: Smash Totem (2ACT)

A Unit Adjacent to a Totem may spend 2ACT to remove 1 **HIT** from it.

A Unit may not perform this Action if it is Adjacent to any enemy Units, or if the Totem is Adjacent to any enemy Units.

VICTORY

- The Squad that destroyed the most enemy Totems wins the mission. In case of a tie, the Squad with more Standing Units wins. In case of a Tie, play more Turns until a winner is clear.

IRON BREAK

Scripted Operation:

⌵ Relict Wardens vs. ⌵ Krumpfists

The Wardens strive to restore their ancient fortresses, reactivating long-dormant pylons of power. The Krumpfists come crashing in for loot and the thrill of battle, eager to smash stone and bone alike. Only one side will hold the ruins when the dust settles.

MISSION 1: BREACH THE FORTRESS

The Wardens labor to restore their fortress, but the Grutak are already at the gates. Krumpfist mobs surge forward, eager to tear down the walls and plunder whatever lies within.

Battlefield: The Ruined City

SETUP

The Fortress occupies the three Eastern tiles (Northeast, East, Southeast). Place 3 Gate Markers: one centered on the Western edge of each Eastern tile.

DEPLOYMENT

- Relict Wardens deploy anywhere within the Fortress before Turn 1.
- Krumpfists deploy within 2 Squares of the Western battlefield edge before Turn 1.

SPECIAL

Each Gate Marker has **ARM 4** and **HIT 4**. Gates may be targeted in Combat. If reduced to 0 HIT, that Gate is destroyed.

Mission Action: Break Gate (2ACT)

A Krumpfist Unit Adjacent to a Gate may spend 2ACT to remove 1 HIT from it. A Unit may not perform this Action if it is Adjacent to any enemies.

VICTORY

- The Relict Wardens win at least 2 of the 3 Gates are still standing by the end of Turn 4. **Proceed to Mission 2A**
- The Krumpfists win in all other cases. **Proceed to Mission 2B**

MISSION 2A: POWERING THE PYLONS

The Wardens hold the gates long enough to bring the ancient pylons online. Their energy begins to surge across the battlefield as they are charged. The Grutak must smash them down before they stabilize.

Battlefield: The Facility

SETUP

Place 3 Pylon Markers: one in the center of each of the West, Center, and East tiles.

DEPLOYMENT

- Relict Wardens deploy within 2 Squares of a Pylon before Turn 1.
- Krumpfists deploy from the Western battlefield edge before Turn 1.

SPECIAL

Mission Action: Activate Pylon (2ACT)

A Relict Warden Unit Adjacent to a Pylon may spend 2ACT to Activate it. A Unit may not perform this Action if it is Adjacent to any enemies, or if the Pylon is Adjacent to any Krumpfists.

Pylons may be targeted in Combat (**ARM 4, HIT 3**).

VICTORY

- The Relict Wardens win if at least 2 Pylons are Activated and still Standing by the end of Turn 4. **Proceed to Mission 3A**
- The Krumpfists win in all other cases. **Proceed to Mission 3B**

MISSION 2B: LOOT THE WORKS

The Krumpfists crash through the gates, scattering the Wardens. Deep within the fortress, they find caches of relic-tech. The plunder is ripe for the taking, unless the Wardens can destroy it first.

Battlefield: The Ruined City

SETUP

Place 3 Cache Markers: one in the center of each of the Fortress tiles (Northeast, East, Southeast).

DEPLOYMENT

Both squads deploy anywhere on the Battlefield before Turn 1, at least 4 Squares away from any Cache Marker.

SPECIAL

Mission Action: Loot (2ACT)

A Krumpfist Unit Adjacent to a Cache may spend 2ACT to Loot it. A Unit may not perform this Action if it is Adjacent to any enemies.

Mission Action: Sabotage (2ACT)

A Relict Warden Unit Adjacent to a Cache may spend 2ACT to Sabotage it. A Unit may not perform this Action if it is Adjacent to any enemies.

Once a Cache is either Looted or Sabotaged, remove it from the Battlefield.

VICTORY

- Krumpfists win if at least 2 of the 3 Caches are Looted by the end of Turn 4. **Proceed to Mission 3A**
- Relict Wardens win in all other cases. **Proceed to Mission 3B**

MISSION 3A: SMASH THE PYLONS

With the fortress broken open, the Krumpfists rampage toward the last active pylons. The Wardens must defend them at all costs, or see their works ground into dust once more.

Battlefield: No Man's Land

SETUP

Place 3 Pylon Markers: one in the center of the West, Center, and East tiles.

DEPLOYMENT

- Relict Wardens deploy within 2 Squares of a Pylon before Turn 1.
- Krumpfists deploy from any Battlefield edge before Turn 1.

SPECIAL

Pylons are treated as items with **ARM 4** and **HIT 4**. They may be targeted in Combat.

VICTORY

- The Krumpfists win if all 3 Pylons are destroyed by the end of Turn 4.
- The Relict Wardens win in all other cases.

MISSION 3B: THE LAST RAMPART

The Wardens rally for one final stand, their fortress heart nearly restored. The Krumpfists must break them here or see the ancient power of the Wardens rise again.

Battlefield: The Facility

SETUP

The Central Tile represents the fortress core. Place 1 Core Marker in its center.

DEPLOYMENT

- Relict Wardens deploy anywhere on the Central Tile before Turn 1.
- Krumpfists deploy from any two opposite battlefield edges before Turn 1.

SPECIAL

Mission Action: Defend (1ACT) Once per Turn, a Relict Warden Unit Adjacent to the Core Marker may spend 1ACT to add a Defense Token to it. A Unit may not perform this Action if it is Adjacent to any enemies.

VICTORY

- The Relict Wardens win if the Core has at least 3 Defense Tokens on it, and at least one Relict Warden Unit remains Standing.
- The Krumpfists win in all other cases.
