EXTRACTION & MISSION POINTS

At start of Turn 4, roll a random Anchor as the **Extraction Point**. At end of Turn 4+, Standing Units within 3" of it and not Adjacent to enemies may **Extract**. Units that fail both conditions count as Taken Out.

HOMEBASE (END OF EACH OPERATION)

4. Update Gear & Spoils of War selections

INJURIES (POST-MISSION, PER TAKEN OUT UNIT)

MISSION SCORING & END

EXTRACTION

At the start of Turn 4, roll a random Anchor as the **Extraction Point**. If it is occupied by an Objective marker, re-roll until an unoccupied Anchor is selected.

At the end of Turn 4 or later, each **Standing Unit** within 3" of the Extraction Point and **not Adjacent to an enemy** extracts successfully.

Units that fail both conditions are left behind — treat as Taken Out for injury purposes.

MISSION END

The mission ends when the Player Squad extracts or all Player Units are Taken Out.

If no Player Units extract, no Objectives are considered completed regardless of their state.

MISSION POINTS

+1 MP per Threat Level — always scored
+3 MP per completed Objective — only if Squad extracts

NPC SQUADS & REINFORCEMENTS

NPC SQUAD SETUP

Select an enemy faction and **Threat Level (1–3)**. Roll **3D6** — each die resolved independently. Look up each result in the column for the current TL to identify spawned Units.

In Campaign play, TL matches the Operation number: TL1 for Op 1, TL2 for Op 2, TL3 for Op 3. We recommend using the same faction for all Missions in an Operation.

REINFORCEMENTS (TURN 5+)

At the start of each Turn from Turn 5 onward, before Battlefield effects, roll **1D6** and consult the Spawn Table for the current TL. Spawn the indicated Units Adjacent to a random Anchor, one Unit per Anchor.
